Our Taxes

What Exactly Does Taxation Mean?

Our daily lives are impacted in a variety of ways by our national and local governments.

The national government is in charge of the duties conducted from a national point of view, including diplomacy and the legal affairs as well as the industries and the economy. Local governments, on the other hand, are mainly responsible for social welfare and the living environment, including education, public health, city development, water supply and sewage, police and fire-fighting, which are closely related to our local communities. Our "tax" is used to share necessary expenses to support the aforementioned public sector projects and services.

Our taxes can therefore be considered as a kind of "membership fee for living as a member of our society".

Taxes Payment Based on the Law

According to Article 30 of the Constitution of Japan, "The people shall be liable to taxation as provided by law", while Article 84 stipulates that "No new taxes shall be imposed or existing ones modified except by law or under such conditions as law may prescribe", In other words, the Constitution guarantees that tax shall be imposed only by the laws and ordinances established at the congress by the representatives selected by us. This is known as the "principle of no taxation without law".

The Ground Rules of Taxation

Laws and ordinances concerning taxes are created taking the following five important components into consideration.

Sovereign of tax	Authorities (national and prefectural governments and municipalities) that impose and collect taxes based on the right of taxation		
Tax object	Entities, acts or facts subject to taxation		
Taxpayer	Individuals or corporations deemed to have an obligation to pay taxes		
Standard Taxable Value	Tax objects concretely expressed in number or the amount of money		
Tax rate	 For calculating the tax amount imposed based on the standard taxable value, this is either a fixed amount or a fixed rate. Standard taxable value × Tax rate = Tax amount • Types of tax rates • Standard tax rate		

In addition to the above, the laws and ordinances concerning taxation stipulate when and how to pay taxes, and what to do if the payment cannot be made by the due date. These matters are determined based on the consensus of the people or local residents.

Types of Taxes

	National tax	Tax paid to the national government
	Local tax	Tax paid to local authorities (comprising prefectural tax and municipal tax)
Direct tax Tax which is directly collected from a taxpa concerned (income tax, inhabitant tax, etc.)		Tax which is directly collected from a taxpayer who actually pays the tax concerned (income tax, inhabitant tax, etc.)
Major categories	Indirect tax	Tax which is collected from a taxpayer who is different from the person who is to bear the tax concerned (consumption tax, tobacco tax, etc.)
	Ordinary tax	Tax which is appropriated to general revenue sources (inhabitant tax, fixed assets tax, etc.)
	Earmarked tax	Tax used for a specific purpose only (establishment tax, city planning tax, etc.)

Following are the categories and the types of taxes.

Among the local taxes in the following page, the tax items marked in gray are the metropolitan taxes. Some of the municipal taxes are treated as metropolitan taxes in the 23 special wards.

This is because the Metropolitan Government is responsible for the administration of fire-fighting as well as water supply and sewage service in the 23 special wards, which are usually handled by municipal governments, and a special measure is taken to appropriate the necessary funds to these services. In addition, 55.1% of revenues from three types of taxes: (1) an amount equivalent to corporate city, town and village inhabitant tax; (2) fixed assets tax; and (3) special land possession tax* in addition to an amount allocated from the business tax on corporations and the special grant for fixed assets tax reduction compensation are distributed among the 23 special wards to finance their source of revenues.

* Special land possession tax has been suspended since FY2003 (H15).

Systems of Taxation and Tax Payment

The methods to impose metropolitan taxes and to pay them are classified into the following four types. Even the same tax, for instance inhabitant tax on individuals, can be handled in a different way.

Туре	Method	Taxes to be paid by this method	
Payment by declaration	Each taxpayer calculates, declares and pays the tax amount.	Prefectural inhabitant tax on corporations /business tax ^{*1*2} on corporations, motor vehicle tax (environmental excite), gas oil delivery tax (for taxpayer's own consumption), establishment tax, prefectural tobacco tax, local government consumption tax ^{*3} and special land possession tax ^{*4}	
Special collection (payment by declaration)	The agents who are obligated to receive the tax from taxpayer on behalf of the Metropolitan Government (special collecting agent) receive the tax together with the sales proceeds, etc. and then, declare and pay the tax.	Inhabitant tax on individuals (salaried workers, etc.)* ⁵ , metropolitan inhabitant tax on interest income, dividend income or capital gain from stocks, etc., golf course utilization tax, gas oil delivery tax (for delivery to wholesaler or exclusive agent) and accommodation tax	
Ordinary collection	The head of competent Metropolitan Taxation Office or the like determines the tax amount based on the method stipulated in the laws or ordinances, sends to the pertinent taxpayer a Tax Notice stating the tax amount, the due date and place to pay the tax, etc. Based on this notice, the taxpayer pays the tax accordingly.	Inhabitant tax on individuals (individual enterprise operator, etc.)* ⁵ , business tax on individuals, real estate acquisition tax, motor vehicle tax (category base) (if annually imposed), fixed assets tax, city planning tax and mine lot tax	
Collection by certification stamps	Payment is made either by sticking a certification stamp on the tax form, etc. or in cash in lieu of a certification stamp.	Hunting tax, motor vehicle tax (category base) (on a monthly pro rata basis (for newly registered automobiles))	

*1 Returns for special corporate enterprise tax must be filed together with the returns for business tax on corporations for business accounting years starting on or after October 1, 2019 (R1).

*2 Returns for local corporation special tax must be filed together with the returns for business tax on corporations for business accounting years starting on or before September 30, 2019 (R1).

*3 Returns for local government consumption tax must be filed together with consumption tax returns.

*4 Special land possession tax has been suspended since FY2003 (H15).

*5 Inhabitant tax on individuals is imposed and collected by the municipality together with metropolitan inhabitant tax and municipal inhabitant tax.

(As of April 1, 2021 (R3))

 (Note 2) Special land possession tax has been suspended since FY2003 (H15).

Our Taxes and Their Use

The Metropolitan Tax to Support the Metropolitan Government

In addition to adequately addressing urgent issues such as implementing enhanced responses to the COVID-19 pandemic and preparing for holding the Tokyo 2020 Olympic and Paralympic Games safely and securely, the Tokyo Metropolitan Government is steadily taking a variety of measures to promote structural reforms incorporating a vision for Tokyo after overcoming the novel coronavirus pandemic, such as by accelerating the implementation of digitalization. These efforts are supported by national treasury disbursements and municipal bonds as well as contributions from Tokyo taxpayers.

Among the Metropolitan Government's general accounting budget for FY2021 (R3) of ¥7.4250 trillion, 67.9%—or ¥5.0450 trillion—is occupied by metropolitan tax.

Taxes Related to Life

Metropolitan, Ward and Municipal Inhabitant Tax on Individuals

Metropolitan inhabitant tax, ward and municipal inhabitant tax on individuals are generally referred to as "inhabitant tax on individuals". The purpose of these taxes is for residents to widely share the costs necessary for the administrative services that are closely related to their lives and provided by the metropolitan and other municipal governments in accordance with the ability of the residents (tax bearing capacity).

Inhabitant tax on individuals comprises a "per income levy" which is imposed in proportion to the income of the previous year and a "per capita levy" imposed as a fixed amount irrespective of income. Residents living in Tokyo as of January 1 are subject to a per income levy and per capita levy, which are imposed and collected by each municipal government with metropolitan, ward and municipal inhabitant taxes. Only a per capita levy is imposed on individuals with an office and/or house and land in the metropolitan area but no address in the municipality where it is located.

In addition, the metropolitan inhabitant tax imposed on individuals includes a "levy on interest income", "levy on dividend income" and "levy on capital gain from shares, etc." (See Pages 15-17 for details.)

• Filing for Inhabitant Tax on Individuals Return

Your income earned in the previous year (January 1 until December 31) shall be declared by March 15, at your local municipality office where you reside as of January 1. Following individuals, however, do not need to declare the income.

- \circ Those who have filed a final income tax return.
- Those whose income is only either employment income, income from public pension, etc. and who have submitted a report of payment to the municipality in which they are residing.

Special Collection of Individual Inhabitant Tax from the Salary

Special collection of individual inhabitant tax from the salary, similar to income tax that is withheld at the source, refers to a system whereby the business owner (payer of salary) deducts the employee's (taxpayer's) individual inhabitant tax from the employee's monthly salary, and pays the tax on behalf of the employee. Individual inhabitant tax is paid to the municipality that the employee resides in. Regardless of whether it is a corporation or an individual, the business owner (payer of salary), as the party responsible for special collection, is required to collect individual inhabitant tax from all employees.

* If the business employs less than 10 people, the due date for tax payment can be changed to twice a year from 12 times a year by submitting an application to the municipality that the employee resides in and getting an approval (special provision on due date).

- Special Collection of Inhabitant Tax from the Salary -

All 62 municipalities in Tokyo are designating all business owners as parties responsible for special tax collection in principle from FY2017 (H29).

Taxable Income

Taxable income is a total income for the previous year minus necessary expenses. Categories of income are as follows.

rin. PR characte

Zeikirin, PR character for individual inhabitant tax

(1) Income Included in the Total Income Amount

Type of income			(Calculation of income (Overview)	Remarks
Interest income*1	Interest income from deposits and savings put in banks abroad, etc.	(Income)			
Dividend income ^{*2}	Dividend on shares and investment in capital, etc.	(Income)	-	(Interest on debt to acquire shares, etc.)	
Real estate income	Rent for land and houses, etc.	(Total income)	-	(Necessary expenses)	
Business income	Income earned from commercial and agricultural business, etc.	(Total income)	-	(Necessary expenses)	
Employment income	Salaries of salaried workers, etc.	(Income)	_	(Deduction for employment income)	See Page 8 for deduction for employment income.
Capital gains on transfer* ³	Income from the asset transfer except real estate, shares, etc.	(Total income)	-	(Acquisition expenses + Transfer – (Special deduction) expenses)	Half of long-term capital gains are taxable.
Occasional income	Prize money, i.e. won at the quiz, etc.	(Total income)	-	(Expenses incurred) – (Special deduction)	Half of the income is taxable.
Miscellaneous income	Income that cannot be classified into other income categories (public	Public pension		(Annual amount of public pension, etc.) - (Deduction amount for public pension, etc.)	See Page 8 for public pension deductions.
	pension, etc.)	Others		(Total income) – (Necessary expenses)	

*1 In principle, the interest income is not included in the total income amount and need not be declared for special tax collection as an inhabitant levy on interest income (see Page 15) or an inhabitant levy on dividend income (see Page 16). However, interest on debentures, underlying the judgement as the family corporation to be received by shareholders (individuals), etc., together with interest on debentures, underlying the judgement as the family corporation to be received by shareholders (individuals), etc., together with interest on debentures, underlying the judgment as the family corporation to be received by individuals) and their families, etc. who maintain special relationships with the corporations that are shareholders, is included in the total income and must be declared based on the general levy of inhabitant tax.

In addition, the dividends, etc. from unlisted shares, and dividends received by major shareholders that hold 3% or more of the overall shares, etc., must be declared as inhabitant tax of the consolidated taxation and is thus included in the total income amount.

*3 Income from the transfer of the real estate, shares, etc. is subject to separate taxation (see Page 8).

^{*2} Dividends such as listed shares for specially collected tax on dividends (see Page 16) of the dividend income need not be declared in principle and the total income amount is not included. However, there is scope to declare as consolidated taxation and have it included in the total income amount (certain types of income are ineligible for consolidated taxation). In this case, the tax amount on the dividend income declared is subject to the tax deduction (see (5) on Page 12) and can be declared as separate income tax (see Page 8).

Retirement income is stipulated, in principle separated from other incomes, to be subject to the current year separate income taxation which is imposed in the accrual *1 year of income from the retirement (see Page 13). Aggregation of profit and loss means calculation of the income amount by aggregating negative and positive income according to a certain rule in the event of where

paper loss applies to several types of income amount. Incomes except for separate income taxation are aggregated. *3

The special collection of metropolitan inhabitant tax on income from the transfer of shares, etc. (see Page 17) is imposed on income from the transfer of listed shares, etc. remitted to the withholding selection account, included in the income from the transfer from shares, etc. Moreover, the special collection of metropolitan inhabitant tax on dividends (see Page 16) is imposed on income from the interest/dividend of listed shares, etc. Accordingly, these incomes are not subject to inhabitant tax per income in principle and need not be declared. However, they can be declared as separate income taxation and included in the tax per income. In this case, the tax on the declared income from the transfer / dividend of shares is subject to tax deduction (see (5) on Page 12).

On listed shares, etc., where a transfer loss occurs, the aggregation of profit and loss can be done between interest/dividend and transfer incomes.

*5 See Page 16 for the abstract context of the listed shares, etc.

Exemption from Taxation

[The cases where both per income levy and per capita levy are tax-exempt]

- (1) Those who receive public aid and livelihood assistance
- (2) Persons with disabilities, minors, widows, or single parents whose total annual income in the previous vear*1 was not more than ¥1.350,000 (less than ¥2.044,000 for employment income recipients)
- (3) Those whose total annual income in the previous year was not more than the amount established by ordinances by local government.

(A) When the principal has a spouse and/or other dependents sharing the same household income:

¥3	350,000	×	(Total number of principal and spouse, dependents sharing the same household	+	¥310,000	or less	
(B	When	the p	principal does not have a spouse and/or	¥450,000)	or less	

(B) other dependents sharing the same household income:

(Note) For individuals that fall under (2) or (3), the per income levy is taxed separately on retirement income.

The formula described above is the case for residents in the 23 special wards. For those residing outside the 23 wards of the Tokyo Metropolitan area, the total annual income amount at which the per capita levy becomes non-taxable may differ depending on the municipality of residence. For details, please consult the municipality where you reside.

[The case where the per income levy is tax-exempt]

Taxpayers whose total net income for the previous year^{*2} is less than the following amount are qualified for tax-exempt.

(A) When the principal has a spouse and/or other dependents sharing the same household income:

- (Total number of principal and spouse, and/or other ¥350.000 ¥420.000 or less dependents sharing the same household income) When the principal does not have a spouse and/or or less
- (B) ¥450.000 other dependents sharing the same household income:

(Note) Per income levy is taxed separately on retirement income.

*1 This amount is the income prior to subtraction of a loss carryover deduction.

*2 This amount is the income subsequent to subtraction of a loss carry-over deduction.

Part-time Income

The income earned through part-time work is treated as income from salary, and the inhabitant tax is treated as shown in the following table.

The table below is applicable in the case of a resident of one of the 23 wards of the Tokyo Metropolitan area who has no dependents.

	Will tax be levied or not?							
Annual income from part-time work	Inhabi	Income tax						
part-time work	Per income levy	Per capita levy	(Reference)					
¥1,000,000 or less	Not taxed	Not taxed	Not taxed					
Over ¥1,000,000 and up to ¥1,030,000	Taxed	Taxed	Not taxed					
Over ¥1,030,000	Taxed	Taxed	Taxed					

(Note) For those who reside outside the 23 wards of the Tokyo Metropolitan area, the amount of income for which per income levy is not taxable varies depending on the municipality of residence (applicable to annual incomes of ¥930,000, ¥965,000, or ¥1,000,000). For details, please consult the municipality where you reside.

Deductions from Income

Some deductions can be made from your income in calculating your inhabitant tax as listed below. This system aims to take individual taxpayer's circumstances into consideration in levying the tax, including the number of dependents as well as expenses incurred due to illness and/or disaster.

Tax Deduction

The tax credit is the amount of deduction in the tax amount after calculation. The credit for inhabitant tax includes the following:

(1) Tax Deduction for Dividend

For a certain dividend income on which consolidated taxation is imposed, the amount calculated by multiplying the income amount by a certain percentage can be deducted.

(2) Deduction for Foreign Taxes

For income, which was earned in a foreign country and on which the taxes, which are equivalent to income tax and inhabitant tax in such country, have been already imposed in that country, the amount calculated by a specified method can be deducted.

(3) Tax Deduction for Donation

Donation exceeding ¥2,000 to a local government or certain organizations can be deducted from inhabitant tax on individuals.

Type of donation	Tax credit for donation
 Donation to local government (Hometown tax payment donation)*1*2 	Standard deduction (10%) + Special deduction
(2) Donation to Community Chest of Tokyo and Japan Red Cross (Tokyo)	Standard deduction (10%)
(3) Donation designated by the ordinance of the prefectural government* ³	Standard deduction (4% for metropolitan inhabitant tax)
 (4) Donation designated by the ordinance of the municipal government*⁴ 	Standard deduction (6% of ward and municipal inhabitant tax)
(5) Donation designated by the ordinance of the prefectural and municipal government* ^{3*4*5}	Standard deduction (4% of metropolitan inhabitant tax $+$ 6% of ward and municipal inhabitant tax)

*1 According to the FY2019 (R1) taxation system reforms, a system has been established in which the Minister of Internal Affairs and Communications designates local governments that comply with the standards as subjects for hometown tax payment donation (special deduction), which will apply to donations made on or after June 1, 2019 (R1). (This designation is made according to requests submitted by local governments.)

*2 Donations made to the Tokyo Metropolitan Government on or after June 1, 2019 (R1) will not be applicable to the hometown tax payment donation (special deduction). Note that the donations concerned will continue to be subject to the standard deduction. For other local governments, please consult each municipality.
 *3 Of the donations eligible for deduction from income tax, the Tokyo Metropolitan Government has designated donations to public-interest

³ Of the donations eligible for deduction from income tax, the Tokyo Metropolitan Government has designated donations to public-interest corporations, school corporations, social welfare corporations, authorized NPOs, etc. having their principal offices in Tokyo.

*4 For details of donations designated by the ordinance of municipal governments, please consult the municipality where you reside.
*5 According to the taxation measures in the emergency economic measures to cope with the COVID-19, items that are deemed to be donations shall be included. For an overview of the taxation measures, see Page 91.

[Methods of calculation]

1. Standard deduction (Used for all applicable donations)

Metropolitan inhabitant tax: (The lower amount of either A or $B - \frac{1}{2},000$) × 4%

Ward and municipal inhabitant tax: (The lower amount of either A or $B - \frac{1}{2},000$) × 6%

- A: Total amount of applicable donations
- B: 30% of total net income, etc.

2. Special deduction (Used only for hometown tax payment donation)

With regard to hometown tax payment donation, the following amount is added to the amount of standard deduction obtained in 1. above. However, it is capped at 20% of the amount of per income levy of inhabitant tax on individuals (amount after deduction of adjustment deduction).

Metropolitan inhabitant tax:

(Total amount of hometown tax payment donation - $\pm 2,000$) × (90% – Income tax rate* × 1.021) × 2/5 Ward and municipal inhabitant tax:

(Total amount of hometown tax payment donation – $\frac{12,000}{\times}$ (90% – Income tax rate* × 1.021) × 3/5

* Income tax rate is the tax rate applied in Page 66.

[Methods of application]

To be eligible for tax credit for donations, fill in the necessary fields under "Items pertaining to inhabitant tax" in Table 2 of the final income tax return form, attach your receipts, and file the return at the taxation office. (Those who are only subject to inhabitant tax on individuals and not subject to income tax should file for inhabitant tax returns at the municipality of residence.)

Starting from April 2015 (H27), when individuals receiving salary who are not required to file final tax returns make hometown tax payment donations, a system has been introduced to request the municipality receiving the donation to apply for the deduction on behalf of the individual, in order to receive a deduction without having to file a final return. ("Hometown Tax Payment Donation One-stop Special System"*)

However, even though people apply a one-stop exception, this system does not apply under circumstances where donations are made to more than five municipalities or declaration for other deductions are made, in which case a final tax return for tax deduction by donations must be filed.

* Donations to the Tokyo Metropolitan Government on or after June 1, 2019 (R1) will not be subject to the Hometown Tax Payment Donation One-stop Special System.

For other local governments, please consult each municipality.

(4) Adjustment Deduction

The amount calculated by applying the following formula is reduced from the per income levy in order to adjust the increase in burden on taxpayers deriving from the difference in personal exemptions of income tax and inhabitant tax in connection with the transfer of taxation resources in FY2007 (H19).

(1) When the total taxable income subject to inhabitant tax on individuals is ¥2,000,000 or less

- 5% (2% metropolitan inhabitant tax and 3% ward and municipal inhabitant tax) of the smaller amount of either (A) or (B) is deducted.
- (A) Total difference in personal exemptions*
 - * The personal exemption refers to the difference in the exemptions of income tax and inhabitant tax such as the deductions for persons with disabilities, widows, single parents, working students and spouses as well as the special deduction for spouses, the deduction for dependents and the basic deduction.
- (B) Total taxable income subject to inhabitant tax on individuals
- ② When the total taxable income subject to inhabitant tax on individuals exceeds ¥2,000,000 and ¥25,000,000 or less

	5% (Metropolitan inhabitant tax 2% and ward and municipal inhabitant tax 3%) of
Deduction of	{Total differences in personal exemptions –
	(Total taxable income subject to inhabitant tax on individuals $ \pm 2,000,000$)

* When the amount is less than ¥2,500, then ¥2,500 is deducted (¥1,000 for the metropolitan tax and ¥1,500 for the ward and municipal tax).

(5) Deduction of Metropolitan Inhabitant Tax on Dividends and Metropolitan Inhabitant Tax on Capital Gain from Shares, etc.

When income is declared on which metropolitan inhabitant tax on dividend income (see Page 16) or metropolitan inhabitant tax on capital gain from shares, etc. (see Page 17) is imposed, such income is imposed as per income levy and the tax on dividends or tax on share-derived capital gains, etc. collected earlier by special collection is deducted from the amount of per income levy. If such amount exceeds the amount that can be fully deducted, the portion exceeding deduction is appropriated to the per capita levy or refunded.

Special housing loan deduction on inhabitant tax on individuals

Those who took up or will take up residence between 2009 (H21) and the end of December 2021 (R3), and who have a housing loan deduction that cannot be fully deducted on income tax, are eligible for deduction of the undeducted portion on the inhabitant tax (per income levy) for the next fiscal year.

Eligible persons: Among those who took up or will take up residence any time between 2009 (H21) and the end of December 2021 (R3) and receive housing loan deduction on income tax, and who have a housing loan deduction that cannot be fully deducted on income tax

Deduction amount: The smaller amount of the following is applied:

- (1) The amount of undeducted portion of the previous year's possible income tax deduction for housing loan
- (2) Previous year's total net income subject to income tax, etc. $\times 7\%$ (up to \$136,500)*
- * If residency begins before March 31, 2014 (H26), then multiplied by 5% (up to ¥97,500)
- (Note 1) In order to receive this deduction, it is necessary to receive the income tax housing loan deduction via final tax return or year-end adjustment. However, there is no need to make a special declaration to the ward, city, town, or village only for this deduction.
- (Note 2) The special measure taking the deduction period as 13 years is revised in FY2021 (R3). For more details, see Page 90.

Tax on Retirement Income

Retirement income, including retirement allowances, is taxed separately from other types of income. Generally, income tax and special income tax for reconstruction, together with inhabitant tax are subject to special collection at the time of receiving payment of retirement allowance.

(1) Calculation of Tax Amount

*1*2 (Amount of Tax rate for per income levy (Deduction for retirement 1/2(Metropolitan inhabitant tax 4%, Ward and retirement income) Municipal inhabitant tax 6%) allowance)

(2) Deduction Amount for Retirement Income

Years of service ^{*3}	Deduction
20 years or less	¥400,000 × years of service (¥800,000 when the deduction amount is less than ¥800,000)
Over 20 years	¥700,000 × (years of service – 20 years) + ¥8,000,000

*1 Not applicable to retirement allowance for executives, etc. who have served for 5 years or less.

*2 From January 1, 2022 (R4), regarding the retirement allowance other than for executives, etc. who have served for 5 years or less, this shall not apply to the portion exceeding ¥3,000,000 of the amount remaining after the retirement income deduction has been deducted from the retirement allowance etc. amount

*3 The years of service are rounded up (even if the fraction is only a day) in the calculation.

[Example]

The case where a worker living in one of the 23 special wards retires during 2021 (R3) after a period of 30 years employment and receives a retirement allowance of \$16,000,000:

O Deduction = \\$700,000 × (30 years - 20 years) + \\$8,000,000 = \\$15,000,000

O Retirement allowance minus the deduction amount for retirement income = \$16,000,000 - \$15,000,000 = \$1,000,000O Tax amount =

■ When the Taxpaver Retires in the Middle of the Year

The taxpayer will receive a Tax Notice from the municipal government office for the portion of the taxpayer's inhabitant tax that, due to retirement, can no longer be deducted from his or her monthly pay by special collection. However, the taxpayer has inhabitant tax by special collection imposed in the following cases:

(1) When the taxpayer finds employment with another company and requests continued special collection

- (2) When the taxpayer retires during the period between June 1 and December 31 and requests that the remaining tax will be withheld in a lump sum from their retirement allowance, etc. by special collection (3) When the taxpayer retires between January 1 and April 30 of the following year, and the retirement
- allowance to be paid by May 31 exceeds the outstanding tax amount (excluding when (1) is applicable)

Capital Gains on Real Estate

In principle, capital gains are income earned by transferring assets such as real estate, machinery and equipment. Capital gains are aggregated with other income to calculate the tax amount. Capital gains on lands (including existing rights on lands) and buildings, however, are calculated separately from other income for taxation purposes. This also applies to national income tax.

The capital gain on the land/buildings that were owned for over 5 years as of January 1 of the year when the transfer was made is considered as the long-term capital gain, while the capital gain on the land/buildings that were owned for 5 years or less is classified as short-term capital gain. The tax calculation differs between these two categories.

(1) Calculation of Taxable Capital Gain

Transfer value	-	Acquisition expenses	+	Transfer expenses]_	Amount of special deduction	=	Taxable capital gain
	-							

• The term "acquisition expenses" refers to the total purchase cost and handling fees incurred when the transferred asset was acquired. When the actual cost is unclear or less than 5% of the transfer value, the acquisition cost will be 5% of the transfer value.

- The term "transfer expenses" refers to brokerage commissions, stamp fees and compensation for removal incurred directly related to the transfer and demolition expenses required for land transfer after the demolition of the building on the land.
- The amount of special deduction is applicable to one of the items in the table shown on Page 14. However, when more than one is applied, the aggregated amount of special deduction is up to ¥50,000,000.

O Special deduction

Description	Deduction
(1) Transfer of land/buildings for the purpose of expropriation	¥50,000,000
(2) Transfer of building and land, etc. for residential use	¥30,000,000
(3) The case where the house, land, etc. that an ancestor provided for residential use is transferred.	¥30,000,000
(4) Transfer of land for specific land readjustment project, etc. executed by the Urban Renaissance Agency, etc.	¥20,000,000
(5) Transfer of land, etc. for specific residential sites development projects, etc.	¥15,000,000
(6) Transfer of agricultural lands, etc. for agricultural land ownership rationalization, etc.	¥8,000,000
(7) Transfer of low-use and unused land, etc.	¥1,000,000

(Note 1) From (1) to (6), deductions can be made either from long-term or short-term transfer income, but (7) can only be deducted from long-term transfer income. The special deduction is limited to a total of \$50,000,000 for the total capital gains throughout that year.

(Note 2) In the case the transfer is as mentioned in (2), (3), the special deduction amount from the transfer income amount related to these transfers is limited to $\frac{1}{30,000,000}$.

(Note 3) (3) will be applicable in the case of transfers during the period between April 1, 2016 (H28) and December 31, 2023 (R5).

(Note 4) (7) will be applicable in the case of transfers during the period from July 1, 2020 (R2) to December 31, 2022 (R4).

O Special Deduction of ¥10,000,000 from Long-term Capital Gains on Transfer of Land, etc. Acquired in 2009 (H21) or 2010 (H22)

When individuals or corporations transfer the lands, which were acquired between January 1, 2009 (H21) and December 31, 2010 (H22) and owned for over 5 years as of January 1 in the year of the transfer, they can receive the deduction of \$10,000,000 from the long-term capital gain on the transfer concerned (up to the amount of capital gain on transfer when the amount is less than \$10,000,000).

(2) Calculation of Taxable Long-term Capital Gain

- (A) General long-term capital gain
 - Amount of taxable long-term capital gain \times 5% (15.315% for income tax and special income tax for reconstruction)
- (B) Long-term capital gain on good residential sites, etc.
 - (When the aforementioned special deduction of \$1,000,000 to \$50,000,000 is applied, the below (a) and (b) cannot be applied.)
 - (a) When the taxable long-term capital gain is $\frac{20,000,000}{2}$ or less
 - Amount of taxable long-term capital gain \times 4% (10.21% for income tax and special income tax for reconstruction)
 - (b) When the taxable long-term capital gain exceeds ¥20,000,000
 - \$800,000 (\$2,042,000 for income tax and special income tax for reconstruction) + (taxable long-term capital gain \$20,000,000) × 5% (15.315% for income tax and special income tax for reconstruction)

O Special Tax Treatment of Reduced Income Tax Rates for Long-term Capital Gains from Transfer of Residential Property

For taxable long-term capital gain when residential property, including houses and land, which had been owned for over 10 years as of January 1 of the year of the transfer, the following tax rates are applied after the special deduction of $\frac{30,000,000}{10}$ is made except when the special deduction was applied in the previous year or two years before.

Taxable long-term capital gain	Tax rate				
Portion up to ¥60,000,000	4% (10.21% for income tax and special income tax for reconstruction)				
Portion over ¥60,000,000	5% (15.315% for income tax and special income tax for reconstruction)				

(Note 1) Transfers to relatives are not applicable.

(Note 2) The special treatment of reduced tax rate cannot be applied together with the special treatment of long-term capital gains earned by the replacement of specified residential property.

(3) Calculation of Taxable Short-term Capital Gain

- (A) General short-term capital gain
- Amount of taxable short-term capital gain \times 9% (30.63% for income tax and special income tax for reconstruction)

(B) Short-term capital gain on transfer to the central or local government, etc.

Amount of taxable short-term capital gain \times 5% (15.315% for income tax and special income tax for reconstruction)

Metropolitan Inhabitant Tax on Interest Income

The metropolitan inhabitant tax on interest income, together with income tax and special income tax for reconstruction, which are national taxes, are imposed on the interest on deposits and savings at financial institutions, etc., separately from other income.

			_
Tax	nav	ver	sl

Individuals who receive interest, etc. from financial institutions*.

* Corporations have become exempted from taxation on interest, etc. received from financial institutions on or after January 1, 2016 (H28).

[Tax payment]

Amount of interest, etc. 5%

(Note) In addition to this, income tax and the special income tax for reconstruction (15.315%) are imposed.

[Due date and procedures for tax payment]

The financial institutions, etc. to pay the interest withhold the metropolitan inhabitant tax on interest income by special collection at the time of paying interest and pay the total monthly tax by the 10th of the next month. In Tokyo, **the Chuo Metropolitan Taxation Office (Metropolitan Inhabitant Tax on Interest Income Group)** handles all the procedures for declaration and payment of the metropolitan inhabitant tax on interest income collected through special collection.

• Taxable Items

- O Interest of public bonds excluding special public bonds (such as government bonds, municipal bonds, listed bonds and publicly offered bonds)*
- O Interest of bank deposits, credit association deposits, etc.
- O Interest of in-house saving deposits, etc.

* Interest on debentures, underlying the judgement as the family corporation and to be received by shareholders (individuals), etc., together with interest on debentures underlying the judgment as the family corporation to be received by individuals and their families, etc. who maintain special relationships with corporations that are shareholders, is subject to the tax on aggregate income and thus excluded from this tax (see Page 7).

(Note) Interest, etc. on special public bonds paid on January, 1 2016 (H28) or after is excluded from the taxation on interest income and subject to the taxation on dividend.

Metropolitan Inhabitant Tax on Dividend Income

The metropolitan inhabitant tax on dividend income, together with income tax and special income tax for reconstruction, which are national taxes, are imposed on the dividends on the listed shares, the redemption profit of discount bonds, etc., separately from other income. Dividends, etc. in tax-exempt accounts on tax-exempt rules for small investments, etc. (such as NISA [Nippon (Japan) Individual Savings Account], Funded NISA, and Junior NISA) are exempted from taxation (see Page 17).

[Taxpayers]

Individuals residing in Tokyo when receiving the dividends, etc. of listed shares, etc. and the redemption profit of discount bonds.

[Tax payment]

5%

Amount of dividends, etc. of listed shares, etc. and the redemption profit of discount bonds

(Note) In addition to this, income tax and the special income tax for reconstruction (15.315%) are imposed.

[Due date and procedures for tax payment]

The listed companies, which pay dividends, etc. or redemption profit of discount bonds, withhold metropolitan inhabitant tax by special collection at the time of such payment and pay the total monthly tax by the 10th of the following month. In Tokyo, the Chuo Metropolitan Taxation Office (Metropolitan Inhabitant Tax on Interest Income Group) handles all the procedures for declaration and payment of the metropolitan inhabitant tax on dividend income collected through special collection.

• Taxable Items

O Dividend, etc. of listed shares, etc.*

O Redemption profit of discount bonds not in the specific account (except for the same imposed tax at issuance)

* Listed shares, etc.

It includes the listed shares, etc.^{**}, the investment trust for which its beneficiary right related to its setting is publicly offered, specific public bonds (such as government bonds, municipal bonds, listed bonds and publicly offered bonds).

X Dividends received by a major shareholder owning 3% or more of total shares are subject to the tax of aggregate income (see Page 7) and not the tax per dividend.

(Note) Since January 1, 2016 (H28), the specific public bonds, etc. have been included in the listed shares, etc.

Special treatment when taking dividends, etc. on listed shares, etc. into the withholding selection account

For dividends, etc. of listed shares, etc. remitted into the withholding selection accounts (hereinafter referred to as "Dividends, etc. remitted to the withholding selection account"), such income is calculated separately from the dividends, etc. of listed shares, etc. which are not in such accounts.

<Outline of special treatment applicable to dividends, etc. remitted to the withholding selection account> Taxpayers:

Individuals residing in Tokyo as of January 1 of the year in which they are eligible to receive dividends, etc. on listed shares, etc. through the withholding selection account

Tax Payment:

Amount of dividends, etc., of listed shares, etc. remitted to the withholding selection account*

* It is the amount deducted from the transfer loss of the listed shares, etc. remitted to the withholding selection account (see Page 17) from the dividend, etc. of the listed shares, etc. remitted to the withholding selection account.

(Note) In addition to this, income tax and the special income tax for reconstruction (15.315%) are imposed. **Due Date:**

The securities companies, etc. handling the payment of dividends, etc. withhold metropolitan inhabitant tax on dividends, etc. by special collection at the time of paying dividends and pay the total annual tax by January 10th of the following year.

Taxable Items:

Of the amount that is taxable for metropolitan inhabitant tax on dividend income, dividends, etc. receivable through the withholding selection account*

* Since January 1, 2016 (H28), there has been scope to remit the specific public bonds, etc. to the withholding selection account and interest form the specific public bonds, etc. is also subject to this taxation.

Metropolitan Inhabitant Tax on Capital Gain from Shares, etc.

Metropolitan inhabitant tax on capital gains, etc. from listed shares, etc., together with income tax and special income tax for reconstruction, which are national taxes, are imposed on such capital gains (income after aggregating yearly profits and losses in trading) remitted to the withholding selection account.

Capital gains, etc. on small amounts of listed share, etc. in tax-exempt accounts or accounts opened on behalf of a minor under the system for tax exemption on investments for small amounts (NISA, Funded NISA, and Junior NISA) are tax-exempt.

[Taxpayers]

Individuals who reside in Tokyo as of January 1 of any given year in which payment becomes due for capital gains on listed shares, etc. remitted to the withholding selection account

[Tax payment]

(Note) In addition to this, income tax and the special income tax for reconstruction (15.315%) are levied.

[Due date and procedures for tax payment]

The securities companies, etc., which handle the payment of income from capital gains on listed shares, etc. remitted to the withholding selection account, withhold metropolitan inhabitant tax on capital gains from listed shares, etc. by special collection at the time of paying such capital gains and pay the tax by January 10th of the following year. In Tokyo, **Chuo Metropolitan Taxation Office (Metropolitan Inhabitant Tax on Interest Income Group)** handles all the procedures for declaration and payment of the tax collected through special collection.

• Taxable Items

Income from capital gains on listed shares, etc. remitted to the withholding selection account* (see Page 16)

* Starting on January 1, 2016 (H28), specified public bonds are available for receipt in a withholding selection account and the capital gains, etc. (including the redemption profit of the discount bonds) are subject to taxation on income from capital gains on shares, etc.

O Aggregation of Profit / Loss between the Transfer Loss and the Dividend of the Listed Shares, etc.

In case the transfer loss of the listed shares, etc. occurs in a withholding selection account, the loss is aggregated with the dividend of the listed shares, etc. in such account (see Page 16).

In addition, to apply the aggregation of profit / loss with the listed shares, etc. which are not in such withholding selection account or the carry-forward deduction of the transfer loss, the final income return filing or the inhabitant tax declaration is separately required (see Pages 6 and 8).

(Note) Since January 1, 2016 (H28), the transfer loss and interest, etc. of the specific public bonds has been subject to the aggregation of profit / loss, etc.

• System for Tax Exemption on Investments of Small Amounts (NISA, Funded NISA) and Tax Exemption on Investments of Small Amounts for Minors (Junior NISA)

Dividend income, etc. and capital gains on small amounts of listed share, etc. in tax-exempt accounts or accounts opened on behalf of a minor are tax-exempt, including metropolitan inhabitant tax.

In addition, small investments, etc. include listed shares, publicly offered stock investment trusts, etc., but exclude specific public bonds, public bonds investment trusts, etc.

If withdrawals are made against this restriction, dividend income and capital gain on shares shall be subject to taxation, treated as if dividends were paid or transfer was made at the time of withdrawal.

Local Government Consumption Tax (Prefectural Tax) and Consumption Tax (National Tax)

These are taxes that are imposed on transactions such as the provision of services and the sale of products and goods. Transactions that incur consumption tax also incur local government consumption tax. In principle, these taxes are paid by business owners. However, they are added to the price of products, etc., and are ultimately borne by the consumer.

[Taxpayers]

(1) Domestic transactions Individual business operators and corporations that engage in businesses that provide services, and the transfer and/or lease of assets (2) Import transactions Those who receive foreign goods from bonded areas Measures to reduce the burden of tax administration The following measures have been implemented in order to reduce the burden of tax administration on business owners. • Tax exemption point system for business owners: Business owners with taxable sales revenue (without taxes) below ¥10,000,000 during the standard period (in the case of an individual business operator, the year before the preceding year and in the case of a corporation, the year before the previous fiscal year) will be exempted from taxation. (Note) Even if the taxable sales revenue is below ¥10,000,000 during the standard period, if the taxable sales revenue for the specific period exceeds ¥10,000,000, the tax exemption point system for business owners is not applied and the business owner will impose taxation. (The specific period referred to is from January 1 to June 30 for individual business operators and, in principle, the six-month period from the start of the previous fiscal year for corporations.) Total expenditure such as salaries may be used as the criteria of ¥10,000,000 during the specific period, in place of taxable sales revenue. ▶ Simple taxation system: Business owners with taxable sales revenue (without taxes) below ¥50,000,000 for the standard period may select the simple taxation system by submitting a notification beforehand. This system

Business Tax on Individuals

The business tax is imposed on individually-owned businesses, particularly those designated under the Local Tax Act and other laws. At present, the law designates a total of 70 different types of businesses (legally designated industry sectors), and most businesses are subject to taxation.

(Note) Those who own business property (machinery, equipment, etc.) are advised to read the section on fixed assets tax (depreciable assets) on Page 31.

[Taxpayers]

Individuals who maintain offices and/or business establishments in the Tokyo Metropolitan Prefecture to conduct any type of legally designated industry sectors.

(Note) For individuals engaged in business without having an office, etc., the personal address or place of residence related most closely to the said business is regarded as the office or place of business.

[Tax payment]

As to the calculation method of tax, see the "Amount of Tax Payment" on Page 20.

[Due date and procedures for tax payment]

In principle, taxpayers shall pay the tax twice a year, in August and November based on the Tax Notice that is sent in August from the Metropolitan Taxation Office or its Branch Office.

Separately from the description above, in special cases such as when submitting an income tax revised return, when corrections and determinations have been made, or when a business has been closed down, filing should be made by the due date mentioned in the Tax Notice.

For details on procedures for tax payment, see Pages 75 to 78.

• Amount of Tax Payment

The amount of tax payment is calculated on the basis of the <u>taxable income</u> stated in the final tax return form submitted to the Taxation Office (national tax), etc.

(1) Business Income and/or Real Estate Income

This income refers to the business income or (and) real estate income deriving from business activities from January 1 through December 31 of the previous year, which is calculated by subtracting the necessary expenses and special reduction for blue return, etc. from the gross earnings. The amount of this income is entered in the income amount box in Table 1 of the final income tax return, financial statement for blue return, and statement of earnings and expenses. (Please note that some miscellaneous incomes may be subject to taxation.)

(2) Deduction of Business Tax on Individuals from Wages for Family Employees

When a relative, who shares the same livelihood with the proprietor, is engaged solely in the proprietor's business, a certain amount can be deducted as necessary expenses.

- Blue return taxpayers: Amount of salary paid (Amount of income tax reduction for family employees)
- White return taxpayers: Up to ¥860,000 a year for a spouse and up to ¥500,000 for other relatives per person can be deducted.

(3) Special Deduction for Blue Return

Special deduction for blue return cannot be applied to business tax on individuals, and thus, the amount of special deduction is included in the taxable income.

(4) Various Deductions

(1) Carryover deduction

In order to receive the following tax deductions, taxpayers need to file a return for income tax, inhabitant tax or business tax every year within a prescribed due date in principle.

(A) Carry-over loss deduction

When a blue return taxpayer's business income goes into the red (incurs a loss), deduction can be carried over for the three-year period after the following year.

(B) Carry-over deduction for loss of business property that suffered from disaster

White return taxpayers can carry forward the amount of loss of business property, which was caused by disasters, including earthquake, storm and flood damage and fire, for deductions over the following three years.

(C) Deduction of capital losses and carryover deduction

The amount of losses incurred by transferring the assets that are used directly in business (e.g., machinery, equipment and vehicles, but excluding land and buildings, etc.) may be deducted from the business income amount. Blue return taxpayers can carry forward the loss over the following three years.

(2) Proprietor Deduction

The deduction amount is ¥2,900,000 a year (or the tax is calculated on a monthly basis for enterprises operating for a period of less than one year).

(Amounts in ven)

Number of months of conducting business	1	2	3	4	5	6	7	8	9	10	11	12

Accreditation Criteria for Real Estate Leasing and Parking Businesses

Comprehensively taking into account the scale of estate for lease and the state of rental income and management, real estate leasing and parking businesses are accredited and taxed accordingly.

A shared estate is accredited according to the state of lease of the shared estate as a whole irrespective of its equity, and the tax amount is calculated according to the equity. Property in trust is also included in the number of estates for lease.

<Accreditation Criteria for Real Estate Leasing and Parking Businesses>

	Category	y and purpose		Scale of estates for lease (including unoccupied ones)		
		Residential	(1) Detached house	More than 10 buildings

	Parking lots other than the above			Accommodating 10 or more vehicles		

*1 Buildings with two or more independently partitioned rooms are accredited according to the number of rooms even if the building as a whole is lent.

*2 When a single contract covers the lease of two or more lots of land, each lot is accredited as one contract.

• Reduction/Exemption of Business Tax on Individuals

By filing an application by the due date for the payment of business tax on individuals, the taxpayer concerned may benefit from reduction or exemption. For further details, see Page 82.

The Tokyo Metropolitan Government has its own tax system (exemption from or reduction of business tax) for encouraging smaller business enterprises to save energy consumption to promote voluntary energy conservation efforts with a view to realizing a low carbon consumption city. For further details, see Page 24.

• Filing a Return of Business Tax on Individuals

The following individuals must file returns of business income, etc. earned in the previous year to the Metropolitan Taxation Office/Island Branch Office by March 15 each year.

(A) Those whose taxable income after subtracting the necessary expenses from total income exceeds proprietor deduction

(B) Those who receive carryover deduction

However, those who filed income tax returns and declared inhabitant tax are deemed as having filed a return of business tax on individuals, and hence do not need to file a separate return. In this case, please complete the required items in the "Occupation Title" and "Business Tax-related Items" columns in each of the declarations. Tax payment notices will be sent to those who are subject to taxation.

When business is discontinued, a return for business tax on individuals must be filed within one month (within 4 months in the case of discontinuance of business due to death) from the date of discontinuance, separately from the final tax return for income tax and tax return for inhabitant tax.

Business Tax on Corporations

Metropolitan Inhabitant Tax and City, Town and Village Inhabitant Tax on Corporations

Tax imposed on corporations with offices/business establishment in Tokyo is generally referred to as "metropolitan inhabitant tax and municipal tax on corporations". The tax includes metropolitan inhabitant tax and city, town and village inhabitant tax both of which consist of "corporation levy" and "per capita levy".

[Taxpayers]

Corporations and non-judicial associations/foundations engaging in profit-making business, which have offices/ business establishments in Tokyo.

Only per capita levy is imposed also on the corporations that maintain dormitories, company-owned resort facilities, lodgings and club houses in Tokyo, as well as on public interest corporations which are not established for profit and specific non-profit associations.

[Tax payment]

Corporate levy

The amount of corporate tax for standard taxable value*

Tax rate

* For corporations reporting on a consolidated basis, the amount of corporate tax is imputed to that for individual corporations

▶ Per capita levy (See the table on Page 28.)

[Due date and procedures for tax payment]

Taxpayers must file a return and pay this tax at the Metropolitan Taxation Office, etc. with jurisdiction over the Tokyo metropolitan area where the main office is located (See Page 92 for relevant Metropolitan Taxation Office, etc.).

- As an exceptional measure, corporations within the 23 special wards of Tokyo file for and pay metropolitan inhabitant tax together with the equivalent amount of city, town and village inhabitant tax to the relevant Metropolitan Taxation Office.
- Corporations located within municipalities declare and pay city, town and village inhabitant tax at the local ward or town office, in additional to filing and paying for their metropolitan inhabitant tax at the Metropolitan Taxation Office (including Branch Office/Island Branch Office).

• Tax Rate

(1) Corporation Levy*1

The Tokyo Metropolitan Government currently employs a higher-than-standard taxation system and, at the same time, the differential taxation system for standard tax rate to corporations with the amount of capital (or the amount of investment in capital) of not more than $\pm 100,000,000^{*2}$ and annual corporate tax amount of not more than $\pm 10,000,000^{*3}$.

^{*3} For split-off corporations that have offices or business premises in several prefectures, this will be the amount of corporate tax according to the standard taxable value before the split-off.

^{*4} The tax rate is established according to the ordinance of each relevant municipality between the standard tax rate and the limited tax rate.

⁽Note) Regarding the tax rates of business accounting years starting on or before September 30, 2014 (H26), please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

(2) Per Capita Levy*1

1. When offices, etc. are located only within the 23 special wards of Tokyo:

Amount (A) in the following table (aggregate of metropolitan and city, town and village inhabitant tax equivalent amounts) shall be paid to the relevant Metropolitan Taxation Office having jurisdiction over the area where the principal office of the corporation is located.

When the corporation's other offices are located within one or more of the 23 special wards other than the ward where the principal office is located, the tax amount is calculated by adding the total amount of (C) in the table below in accordance with the number of special wards where non-principal office/offices is/are located to the amount of (A) in the following table.

- 2. When offices, etc. are located only in the municipalities outside the 23 special wards of Tokyo: Amount of (B) in the following table shall be paid to the relevant Metropolitan Taxation Office/Branch Office/Island Office, and amount (C) shall be paid to the relevant city, town or village government office or offices.
- **3.** When offices, etc. are located both in the 23 special wards and other municipality/municipalities in Tokyo: The tax amount, which is calculated by adding the total amount of (C) in the table below in accordance with the number of special wards where non-principal office/offices is/are located to the amount of (B) in the following table, shall be paid to the relevant Metropolitan Taxation Office/Branch Office/Island Office having jurisdiction over the area where the principal office of the corporation is located. Amount of (C) shall also be paid to the relevant city, town or village government office or offices.

*1 The per capita levy is imposed in accordance with the amount of capital, etc. and the number of employees, etc.

*2 The amount of capital, etc. as provided in Article 23, Section 1, Item 4-5 of the Local Tax Act.

If the amount of capital, etc. is less than the sum of the capital plus capital reserve, or the amount of contribution, then the calculation shall be on a per capita basis, with the sum of the capital plus capital reserve, or the amount of contribution as the standard.

(Note) For mutual companies stipulated in the Insurance Business Act, the amount of capital etc. means the amount of net assets.

• Tax Payment by Interim Return

Corporations, whose current business accounting period started more than six months ago, file the interim return within two months after six months since the commencement date of the accounting period. (The interim return based on the provisional settlement of account is unavailable for the corporations that report on a consolidated basis). However, an interim return for corporate tax is not required if it is not an obligation* or if only the corporation's dormitories, etc. are located in the locality.

Calculation of the amount of corporation levy for filing a provisional return is as follows:

Tax amount in the previous business accounting year $\times 6 \div$ Number of months in the previous business accounting year

* The consolidated corporations, whose taxation is based on net income, are not obligated to file an interim return if the equivalent amount for the six months based on the payment of individually imputed consolidated corporate tax in the previous business accounting year is \$100,000 or less.

Establishment Tax

Establishment tax is an earmarked tax to be used for the projects to improve and maintain the urban environment. This is also municipal tax imposed only in the cities specified by the Local Tax Act. In Tokyo, this tax is imposed as metropolitan tax as a special case in the 23 special wards in addition to the four cities*, including Musashino City, Mitaka City, Hachioji City and Machida City.

* For questions on the establishment tax imposed in the four cities, please contact the relevant city hall.

[Taxpayers] • Per-property levy Corporations or individuals whose total floor space of offices in the 23 special wards in Tokyo is more than 1,000 m² (tax exemption limit). • Per-employee levy Corporations or individuals whose total number of employees in offices located in the 23 special wards in Tokyo is more than 100 (tax exemption limit). [Tax payment] • Per-property levy Floor areas of offices (m²) × Tax rate ¥600 • Per-employee levy Total amount of employee's salary × Tax rate 0.25% [Due date and procedures for tax payment]

The tax must be calculated by self-assessment and paid to the Metropolitan Taxation Office having jurisdiction over the area in the 23 special wards, in which the principal place of business is located, within two months from the closing date of the business year in case of corporations, and for individuals by March 15 of the year following the year when the business was conducted.

Different from business tax on corporations, metropolitan inhabitant tax on corporations, etc., the establishment tax has no system for extending the due date of filing a tax return.

List of the Jurisdictions of Metropolitan Taxation Offices Pertaining to Establishment Tax (in the 23 Special Wards)

Taxation office	Jurisdiction areas
Chiyoda Metropolitan Taxation Office	Chiyoda Ward, Bunkyo Ward, Kita Ward, Arakawa Ward, Adachi Ward

(Note) Tax return can be also filed, and application forms submitted, at the Taxation Office of the ward where the principal business establishment, etc. is located

• Business Establishment, etc.

The term "business establishment" refers to offices and establishments regardless of whether they are owned or rented. Specifically, this includes offices, stores, factories and warehouses.

• Decision on Tax Exemption Limit

The tax exemption limits are decided for per-property levy and per-employee levy respectively in accordance with the actual status as of the final day of the business accounting year for corporations and as of December 31 for individuals.

Filing of Establishment Tax Return

The following declarations are required in addition to declaration of tax return.

- (Note 1) For the following declarations that are related to establishment tax in the 23 special wards, electronic declarations using eLTAX, as well as electronic applications and submissions are accepted. See Page 33 for details.
- (Note 2) In line with the introduction of the Individual Number ("My Number") System, it may be necessary to enter your Individual Number or corporate number when submitting a declaration. See Page 89 for details on the Individual Number System.

(1) Declaration of Not Exceeding the Tax Exemption Limit

In the following cases (A) to (C), corporations must declare within two months of the closing date of each fiscal year and individuals must declare until the following March 15 of the year in which they transacted the business.

- (A) When a taxpayer was liable to tax in the previous business year or previous taxation period related to individual taxes
- (B) When the total floor area of business establishment, etc. located in the entire area of the 23 special wards is over 800 m² and not more than 1,000 m²
- (C) When the total number of employees in the business establishment, etc. located in the entire area of the 23 special wards is over 80 and not more than 100.

(2) Declaration of Foundation/Closure of Business Establishment, etc.

Those who founded or closed the business establishment, etc. in the 23 special wards are responsible for declaration within one month after the date of foundation or closure.

(3) Declaration of Leasing Buildings Used as Business Establishment

Those who lease building for business purpose (corporations or individuals engaged in the business) in the 23 special wards are responsible for declaration.

(A) When newly leasing building for business purpose:

Declaration has to be made within two months from the day on which the new lease is made.

(B) When there is a change in lease declaration: Declaration has to be made within one month from the day on which lease conditions changed.

O Places to submit declaration form regarding (1) to (3) as above in the 23 special wards:

(1): Metropolitan Taxation Office* having jurisdiction over the location of the principal business establishment, etc.

* Tax return can be also filed and submitted at the Taxation Office of the ward where the principal business establishment, etc. is located.

(2), (3): The Metropolitan Taxation Office* with jurisdiction over the area where the business establishment that was newly founded /closed or the buildings that are leased to be used as business establishments are located.

* Declaration forms can also be filed and submitted at the Metropolitan Taxation Office located in the ward where the business establishment that was newly founded/closed or the buildings that are leased as business establishments are located.

Declaration forms can also be obtained from the website of the Tokyo Metropolitan Government Bureau of Taxation (Japanese only)

Mine Lot Tax

Taxes are imposed on the rights to dig mineral reserves (mining right).

[Taxpayers]

Those who have a mining right in the mine located within Tokyo

* Taxes for mine lot for petrol/combustible natural gas are 2/3 of the above amount.

[Due date and procedures for tax payment]

The mine lot tax is to be paid, in principle, in May in accordance with the Tax Notice sent from the relevant Metropolitan Taxation Office (island branch office).

Fixed Assets Tax (Depreciable Assets)

This is a municipal tax imposed on the owners of fixed assets (depreciable assets) other than land/buildings. While the tax on the fixed assets (depreciable assets) located in the Tama or island regions are imposed by the municipality, the tax on the fixed assets in any of the 23 special wards is imposed by the Tokyo Metropolitan Government as an exceptional measure.

• Definition of "Depreciable Assets"

Depreciable assets are defined as the business assets excluding land/buildings where the amount of depreciation or depreciation expense is included in losses or necessary expenses when calculating the income pursuant to the Corporation Tax Act or the Income Tax Act. These assets include the structures, machinery, equipment and fixtures, which the corporations or individual business operators have acquired for business use.

• Main Depreciable Assets

Types of assets	Examples			
Structures	Power substation, paved roads, gardens, exterior works such as gates, walls, fences and greening facilities, billboards including advertising towers, etc.			
Machinery and equipment	Machinery and equipment including various types of production equipment, mechanical parking facilities (including turntables), etc.			
Ships and vessels	Boats, fishing boats/vessels, pleasure boats, etc.			
Aircrafts	Airplanes, helicopters, gliders, etc.			
Automobiles and other vehicles	Large-sized special-purpose motor vehicles (Vehicles with category numbers "0, 00 to 09, and 000 to 099", "9, 90 to 99, and 900 to 999"), etc.			
Tools, appliances and fixtures	PCs, display cases, signboards (neon sign), medical equipment, measuring equipment, molds, barber and hairdressing equipment, partitioning screens, air conditioners, furniture for drawing rooms, cash register, vending machines, etc.			

Procedures from Submission of Tax Return to Taxation

♦Submitting your tax return

Those who possess depreciable assets as of the date of taxation (January 1) in any given year shall report the depreciable assets concerned to the Metropolitan Taxation Office in the ward where the assets are located by January 31 of that year. To prepare a tax return on depreciable assets, corporations should refer to the fixed assets ledger and the corporate tax return form (e.g., Appendix 16 (1)(2)) and individuals should refer to the financial statements, the fixed assets ledger, etc.

In the Following Cases

\diamond When owning buildings:

Fixed assets tax is imposed on the depreciable fixed assets, including the facilities equipped to the buildings such as power substation and storage battery system, mechanical parking facilities (including turntables), exterior works and advertising towers, etc.

When renting offices or other spaces (as tenants, etc.):

The tax is imposed on the depreciable fixed assets such as interior finishing, fixtures and building equipment installed by a tenant.

♦Treatment of small sums of depreciable assets

<Local Tax Common Tax Payment System>

From October 2019 (R1), a local tax common tax payment system utilizing eLTAX was introduced for all local governing bodies, which enables electronic tax payments to be made all together in a one-time procedure. For more details, please confirm Page 78 or the eLTAX website (Japanese only) below.

<Time of availability of CLTAX services>

[Availability of various procedures]

Services are available from 8:30 a.m. through 12:00 a.m. (midnight), Mondays through Fridays (except on Saturdays, Sundays, other holidays and year-end holidays (December 29 - January 3)) *Additionally, the system can also be utilized on some holidays. For more details, please confirm the eLTAX website (Japanese only).

Taxes Related to Real Estate

Real Estate Acquisition Tax

Tax is imposed on those who acquired real estate such as through purchases of land and buildings or through construction of a residence/building, regardless of whether the property is registered or not. However, for the acquisition through inheritance, etc., the tax is not imposed in certain cases.

[Taxpayers]

Those who have acquired land or buildings (regardless of individuals or corporations) by purchase, gift, exchange, or construction (new construction, enlargement of buildings, and remodeling) regardless of whether the acquisition was a paid or gratuitous acquisition, or whether or not it was registered.

[Tax payment]

- *1 For housing land, etc. (housing land or evaluated housing land) acquired on or before March 31, 2024 (R6), the standard taxable value of housing land is the acquisition price × 1/2.
- *2 Tax rates are as shown in the following table.

Date of Acquisition	Land	Building (Residence)	Building (Non-residence)
From April 1, 2008 (H20) to March 31, 2024 (R6)	3/100		4/100

[Due Date and Procedures for Tax Payment]

Tax Notice is sent from the Metropolitan Taxation Office/Island Branch Office. The tax shall be paid by the due date mentioned in the Tax Notice.

See Pages 75 and 76 for details on the tax payment procedure.

• Value of Acquired Real Estate

The value of the acquired real estate is imposed and determined based on the Standard Valuation Code of Fixed Assets, which was established by the Minister for Internal Affairs and Communications. The assessed values are basically equivalent to the registered prices in the fixed assets tax ledger, with the exception of newly constructed residences/buildings, etc.

In addition, when land and/or buildings are received as gifts or acquired by exchange, the values are equivalent to the registered prices in the fixed assets tax ledger.

• Tax Exemption Limit

Where the standard taxable value is less than the following amounts, real estate acquisition tax is not imposed.

Land	¥100,000
New/expanded/renovated	¥230,000
Buildings	
Others (sale, etc.)	¥120.000

Notification of the Acquisition of Real Property

Submit notification to the competent Metropolitan Taxation Office (or branch office/island branch office) having jurisdiction over the area, where the land/buildings are located, within 30 days from the date of acquisition. Notification is also required for acquisition of unregistered assets.

• Tax Deduction for Residential Building Acquisition

(1) Newly-built Residential Buildings (Including Enlarged and Remodeled Residential Buildings):

[Requirements] A certain amount is deducted from the assessed value of residential buildings if the floor area^{*1} of the buildings meet the requirement below.

	Lowe		
	Detached house	Houses other than detached houses*2	Upper limit
Houses other than the ones for rent	50 m ² or more	50 m ² or more	240 m ² or less
Houses for rent	$50 \text{ m}^2 \text{ or more}$	$40 \text{ m}^2 \text{ or more}$	240 m ² or less

*1 The floor area in the present circumstances, which may differ from the registered floor area, is used for assessment. The floor space of condominiums, etc., includes the floor area of the common space divided proportionally in accordance with the floor area of the private space.

*2 Houses other than detached houses refer to condominiums, etc. with sectional ownership or apartments, etc. with structurally independent lot. The assessment of the requirements of floor space is conducted for each independent lot.

[Deduction] ¥12,000,000*³ (For buildings valued at less than ¥12,000,000, the deduction is equal to the value.) *3 For houses other than detached houses, the deduction applies to each independent lot.

For new residential buildings meeting the criteria for long-term quality housing, which is stipulated in the Act on the Promotion of Diffusing Long-term Quality Housing, the deduction amount is $\frac{13,000,000}{13,000,000}$. (This provision applies only to the buildings that were/will be acquired on or before March 31, 2022 (R4))

[Calculation of tax amount]

 $\{(Assessed value of residential buildings) - (Deduction)\} \times Tax rate 3\% = Tax amount$

(2) Used Residential Buildings

[Conditions] A certain amount can be deducted from the assessed value of residential buildings, which meet all of the following requirements (A through C).

Requirement	Details		
(A) Residential requirement (Note) It is necessary that the state of the building at time of acquisition was "residence".	Residential building that was acquired by the owner as his or her own personal residence. (If a building designed for non-residential use is to be remodeled for residential use, the said remodeling work must be completed prior to the		
	acquisition.) 50 m ² to 240 m ²		
(B) Floor area requirement	(Assessment of floor area requirement is to be identical to that of the "Case of Newly Built Residential Buildings.")		
(C) Earthquake-proofing standard requirements*1	Building newly built on or after January 1, 1982 (S57)	Residential building that has been certified as the one meeting new earthquake-proofing standards in an earthquake-resistance inspection conducted by an architect or other expert (said inspection for certification must have been completed within two years prior to the date of acquisition of the residence) among the buildings that do not meet the structural requirement stated in the left column.	

*1 Even if a used residential building (limited to residential buildings acquired on or after April 1, 2014 (H26)) does not meet the requirements stated in (C) above, a certain amount may be deducted from the tax amount on the residential building in case that the seismic retrofitting is conducted within six months of acquisition, the certification that the building meets new earthquake-proofing standards is obtained, the building is used for resident and such retrofitting is completed before residential use commencement. The premises may also be eligible to receive a reduction of taxes (limited to premises acquired on or after April 1, 2018 (H30)). For details, please consult the Metropolitan Taxation Office (or island branch office) where the building is located. Regarding the main taxation measures for coping with the COVID-19 pandemic, see Page 91.

[Deduction]

Date of Construction	Deduction	Date of Construction	Deduction
Jul. 1, 1954 (S29) to Dec. 31, 1963 (S38)*2	¥1,000,000	Jul. 1, 1981 (S56) to Jun. 30, 1985 (S60)*2	¥4,200,000
Jan. 1, 1964 (S39) to Dec. 31, 1972 (S47)*2	¥1,500,000	Jul. 1, 1985 (S60) to Mar. 31, 1989 (H1)	¥4,500,000
Jan. 1, 1973 (S48) to Dec. 31, 1975 (S50)*2	¥2,300,000	Apr. 1, 1989 (H1) to Mar. 31, 1997 (H9)	¥10,000,000
Jan. 1, 1976 (S51) to Jun. 30, 1981 (S56)*2	¥3,500,000	Apr. 1, 1997 (H9) or later	¥12,000,000

*2 For used residential buildings newly built on or before December 31, 1981 (S56), only buildings that have been certified as meeting new earthquake-proofing standards are eligible. For details, see the requirements stated in (C) above.

[Calculation of tax amount]

(Assessed value of residential buildings – Deduction)*³ × Tax rate 3% = Tax amount

*3 If you acquire equity interest in the house, the amount would be amount of price and deduction of the house multiplied by such equity interest.

• Reduction for Residential Land Acquisition

Where a residential building site subject to the section "Tax Deduction for Residential Building Acquisition" on Page 35 are acquired, a certain amount is deducted from the land tax if any of the following requirements are met.

«Acquisitio	of land fo	or new residential	building»
--------------------	------------	--------------------	-----------

Category	Requirements
Acquisition of land before the construction of residential building	The new house must be built on the land within three years* of acquiring the land (provided that (1) the acquisitor of the land continues to own the land until the construction of the new house and, (2) the person having acquired the land from the acquisitor of the land (the counterpart of the transfer) builds a new house.)
Acquisition of land after the construction	(A) Those who built a new residential building on the leased land acquire that land within one year from the construction of the residential building.
of residential building	(B) Those who acquired new and not-used residential building and its site within one year from the day of the construction of the residential building (including simultaneous land/house acquisition).

* For land which was/will be acquired on or before March 31, 2022 (R4), in the case where it is difficult to build a new house within three years since the land acquisition, the tax can be reduced within four years since its acquisition when found to be in compliance with the requirements designated by the ordinance (For apartment houses, etc. with 100 or more units in one building, where it is deemed to take more than three years for new construction due to unavoidable circumstances).

«Acquisition of the land for used residential building»

Category	Requirements
Acquisition of land prior to residential building	Individuals, who purchase the land, acquire the residential building on the land within one year of the land purchase (including simultaneous land/residential building acquisition)
Acquisition of land after residential building	Individuals, who leased the land to acquire the residential building, acquired the land within one year of the acquisition of residential building

«Tax reduction»

Following amount of either (A) or (B), whichever is larger, can be reduced.

(A) $\frac{1}{45,000}$ (For amounts of less than $\frac{1}{45,000}$, the deduction is equal to the amount.)

(B)	Assessed value of land per 1 m ^{2*}	×	Twice the floor area of a residential building (up to 200 m ² per house)	×	Tax rate 3%	
-----	----------------------------------------------	---	----------------------------------------------------------------------------------------	---	-------------------	--

* For acquisition of residential land or the like (residential land or land assessed as residential land) not later than March 31, 2024 (R6), the assessed value of land per m² is calculated based on the 1/2 of the assessed value.

(Note) If you are acquiring equity interest in the house, the amount would be the product of the amount obtained in (B) above with the amount of equity interest.

• Declaration for Tax Reduction

Apply for tax reduction by submitting the necessary documents (in principle, copies are acceptable) to the relevant Metropolitan Taxation Office (or branch office/island branch office) having jurisdiction over the area, where the land/building are located, in principle, within 60 days from the date of acquisition of the residential building or land for residential use.

	Necessary documents
Newly-built residential building	Contract document for construction work / certificate of inspection or certificate of registered items (buildings) / floor plan (in the case of multipurpose residential buildings with residential complexes and stores, etc.) / long-term quality housing certification notice (for certified long-term quality housing)
Used residential building	Purchase and sales contract and receipts for final expenses / certificate of registered items (buildings) / certificate of residence (those with no entry of Individual Number)
Land for residential use	Contract of land sales and receipts for final price / certificate of registered items (land) / documents required for the reduction of taxes on newly-built or used residential buildings as mentioned above

(Note) Documents other than those mentioned above may need to be submitted as required.

• Calculation of Real Estate Acquisition Tax

[Example] A newly built residential building as well as land was purchased in May 2021 (R3). The area of the land is 125 m² and the total floor area of the residential building is 100 m². The purchase price (assessed value) is ¥72,000,000 for the land and ¥12,600,000 for the building. What is the amount of tax due?

	•]			
	Assessed value	(A)	¥12,600,000	See the requirements of "Tax Deduction for Residential Building Acquisition" on Page 35.
Residential building	Reduction for the residential building acquisition	(B)	¥12,000,000	(See "Deducted amount" on Page 35.)
	Standard taxable value	(C)	¥600,000	(A) - (B)
	Tax payment		¥18,000	(C) \times (Tax rate 3%)
	Assessed value	(D)	¥72,000,000	
	Standard taxable value	(E)	¥36,000,000	(D) \times 1/2 (See Page 34.)
	Assessed value per 1 m ²	(F)	¥288,000	(E) \div Total land area (m ²)
	Tax amount	(G)	¥1,080,000	(E) \times (Tax rate3%)
Land	Reduction for land for residential use (Residential building reduction)	(H)	¥45,000	(See "Tax Reduction" (A) on Page 36.)
	Reduction for land for residential use (Residential building reduction)	(I)	¥1,728,000	(F) × {(total floor area of residential building) × 2 (up to 200 m ² per building)} × Tax rate 3%
	Deduction (Residential building reduction)	(J)	¥1,728,000	(H) or (I), whichever is higher
	Tax payment		¥0	(G) - (J) No tax is imposed for the value of 0 or less.

[Calculation]

Therefore, the tax due is: Residential building ¥18,000 + Land ¥0 = ¥18,000

Fixed Assets Tax (Land & Buildings)

While the municipal governments impose taxes on fixed assets in Tama and the island areas, the Metropolitan Government imposes the metropolitan tax on fixed assets in the 23 special wards as an exceptional measure.

• Fixed Assets	
"Fixed asset" is a general to	erm for land, buildings and depreciable assets, including the followings:
[Land]	Rice fields, farms, residential land, salt pans, mineral springs, ponds and swamps, forests, stock farms, wasteland and land for other purposes (miscellaneous land)
[Buildings]	Residential buildings, stores, factories (including power stations and substations), warehouses and buildings for other purposes
[Depreciable assets]	Business property such as structures, machinery, equipment, vessels, aircrafts, tools, instruments, fixtures that are subject to depreciation under the Corporate Tax Act or Income Tax Acts, excluding the property subject to motor vehicle tax (category base) or light motor vehicle (category base) (See Pages 31 and 32 for fixed assets tax on depreciable assets.)

[Taxpayers]

Those who are registered in the fixed assets tax ledger as owners of land and/or buildings as of January 1

► Taxpayer Subsequent to Transfer of Assets

In the event that the transfer of ownership of assets is executed on or after January 2, the obligation for paying taxes on the assets is not transferred.

Although there may be cases in which the burden of the fixed assets tax is adjusted between the parties based on the sales contract or the like in proportion to the length of period of ownership, such an arrangement would be nothing more than to bind the parties concerned.

[Tax payment]

Land and buildings

Standard taxable value* × Tax rate 1.4% – Reduction amount, etc.

* Price registered in the fixed assets tax ledger (see Pages 39 to 43 for land).

[Due date and procedures for tax payment]

In principle, taxpayers shall pay the tax four times a year in June, September, December, and February based on the Tax Notice that is sent in the first tax due month in June. (For due dates on tax payment in each city, town, or village municipality, see Page 104.)

For land and buildings, the Tax Notice is accompanied by a detailed specification of tax assessment.

For payment methods, see Pages 75 to 78 for details.

• Assessed Value of Fixed Assets

The value of fixed assets is the price that is determined by the prefectural governors or the mayors of city, town or village on the basis of the Standard Valuation Code of Fixed Assets, which was established by the Ministry of Internal Affairs and Communications, and then registered in the fixed assets tax ledger.

• Assessed Value of Land and Buildings

Once every three years, an across-the-board revaluation is carried out to determine new prices. The fiscal year of this revaluation is called the basic taxable year, and FY2021 (R3) is one of the basic taxable years.

In the second (FY2022 (R4)) and third (FY2023 (R5)) years following the basic taxable year, the prices set in the basic year (FY2021 (R3)) are retained. However, fixed assets are newly assessed to determine new prices, such as in the case of subdivided/consolidated land tracts or newly built, extended or renovated houses.

• Tax Exemption Limit

The fixed assets tax is not imposed when the total standard taxable value of fixed assets owned by the same person in the same municipality is less than the following:

Land: ¥300,000 Residential building: ¥200,000

• Definition of Residential Land and its Special Cases

(1) Residential Land is Defined as the Land that Meets One of the Following Conditions as of the Base Date for Assessment (January 1).

- (A) The land used as a site for exclusively residential dwelling (residential building used exclusively as dwelling space) with a maximum area 10 times larger than the floor area of the residential building that is actually built on it.
- (B) The land used as a site for a dwelling house combined with other use (part of the building is used as dwelling space, and the proportion of dwelling space to the floor space of the residential building* is 25% or more) with the area of site calculated by multiplying the area by the rates shown in the table below. (However, the area will be the one calculated by multiplying 10 times the size of the residential building by the rates shown below if the land area is more than 10 times larger than the floor area of the residential building located on it.)

Types of dwelling house combined with other use	Proportion of dwelling space *	Rates
Residential buildings other than the ones listed below	25% or more to less than 50%	0.5
	50% or more	1.0
Fireproof residential buildings with five or more stories above the ground	25% or more to less than 50%	0.5
	50% or more to less than 75%	0.75
	75% or more	1.0

* Proportion of dwelling space = Floor space of dwelling portion / Total floor space of the residential building

(2) Special Measures for Standard Taxable Value

Special measures for standard taxable value of residential land have been taken for the land used as house lot so as to lighten the tax burdens.

The fixed assets tax on land for residential use to which the special measures are applied (amount of regular standard taxable value) is calculated as shown in the table below according to the type of residential land, fixed assets tax and city planning tax.

Type of 1	residential land	Fixed assets tax	City planning tax
Small-scale residential landResidential land with up to 200 m² per residential building*		Assessed value × 1/6	Assessed value $\times 1/3$
General residential land Residential land other than land for small-sized residence		Assessed value $\times 1/3$	Assessed value $\times 2/3$

*Although in principle the number of housing units shall be one unit in one building, in the case where there are a number of independently partitioned parts for residential use, such as single rooms in an apartment, this number shall be taken.

(Note) This is applicable to the "specified vacant house, etc." in the Law for Special Measures to Promote Dealing with Vacant Houses, although special measures of the standard taxable value shall not apply to sites of houses for which advice had been given from the ward to the owner, etc. but the necessary measures were not taken according to the advice by the day of assessment (January 1).

• Declaration of Residential Land

In the following cases, it is necessary to file a "Declaration of Residential Land, etc. for Fixed Assets Tax Purposes" form with the Tokyo Metropolitan Taxation Office having jurisdiction over the ward where the land is located on or before January 31 of the following year.

- 1) A new residential building is acquired or enlarged.
- 2) All or a part of a residential building is demolished.
- 3) A residential building is rebuilt*¹.
- 4) All or a part of the existing residential building is converted for a different purpose other than residence
- (e.g. from a house to a shop, or vice versa).
- 5) Land use is converted (e.g. utilizing land that was previously a garden as a parking lot).
- 6) A residential building is destroyed or damaged due to disasters, etc.*2
- *1 Regarding 3) "A residential building is rebuilt."

As of the date of assessment (January 1), in principle the land on which a residential building is being constructed or where the construction is planned is not regarded as residential land. However, in cases where certain conditions are met, such as when an existing residential building is to be demolished and a residential building is to be rebuilt, the special measures of the standard taxable value are continued to be applied as residential land based on a declaration. For more details and the procedures, please contact the Tokyo Metropolitan Taxation Office (Land Group) having jurisdiction over the land that you own.

^{*2} Please file a "Declaration of Disaster-Damaged Residential Land for Fixed Assets Tax Purposes" form.

• Measures to Adjust the Tax Burden for Residential Land

(1) Balancing of Tax Burden Levels

The amounts of fixed assets tax and city planning tax are calculated in principle on the basis of the assessed value or the special measure amount (for residential land, the amount to which the special measures are applied (regular standard taxable value)).

As for land, however, in order to contain sudden rises in tax amounts due to revaluation, etc., a standard taxable value reflecting measures to adjust burden levels is used in the calculation.

In addition, for <u>non-residential</u> land where tax burden levels are up to 70%, the measure to retain the standard taxable value set in the previous fiscal year will continue, in order to equalize the tax burden level (level of discrepancy between the price and the standard taxable value).

 $\frac{\text{Tax burden level}}{(\%)} = \frac{\text{Amount of standard taxable value, etc. for FY2020 (R2)*}^{1}}{\text{Assessed value, etc. in FY2021 (R3)*}^{2}} \times 100$

- *1 In the case where land was subdivided or consolidated within 2020 (R2), tax will be assessed according to the standard taxable value of FY2020 (R2) for similar land.
- *2 Asset values, etc. refer to any one of the followings:
 - O Amount to which special measures are applied (regular standard taxable value);
 - O Agricultural land in urbanization promotion area (assessed value $\times 1/3$); or
 - O Assessed value in any other cases

(2) Tax Burden on Residential Land and Standard Taxable Value

- O Residential land:
 - Tax burden level of 100% or more
 - Tax burden level of less than 100%
- O Commercial land, etc.:

Tax burden level of over 70%

- \rightarrow Regular standard taxable value (assessed value $\times 1/6$ or 1/3)
- \rightarrow The standard taxable value for the previous fiscal year, etc.
- Tax burden level of 70% or less
- → Reduction to the legal upper limit (70% of the price) of the standard taxable value applied*
- \rightarrow The standard taxable value for the previous fiscal year, etc.*

* Following the last fiscal year, the reduction measure has been taken to bring down the standard taxable values (the upper limit of burden level) for fixed assets tax and city planning tax applicable to commercial land, etc. (residential land used for non-residential uses, etc.) in the 23 special wards from 70% to 65% based on the municipal ordinance. As a result, when the tax burden level is over 65%, the tax burden will be reduced to a level comparable to the case where the standard taxable value is lowered to 65% of the assessed value.

(3) Measures to Adjust Tax Burden in FY2021 (R3)

Limited to FY2021 (R3), based on the socioeconomic activities and the large changes in the environment influencing all aspects of Japanese citizens' lives due to the COVID-19 pandemic, in consideration of the burdened feeling of taxpayers, in order to limit the rise in tax amounts resulting from the FY2021 (R3) revaluation it has been decided to leave the previous fiscal year's standard taxable values unchanged in situations such as when the price rises compared to the previous fiscal year.

However, in cases such as where the FY2021 (R3) prices change as a result of land tract subdivision/consolidation, or when the land certification has been changed due to changes in the land use, there may be situations where the tax amounts will change.

The Measures to Reduce/Exempt Tax Burden for Lands (in the 23 Special Wards)

(1) Reduction under Ordinance on Alleviation of Maximum Burdens Pertaining to Commercial Land (Reduction under the Item 2 of Article 15 of Bylaw to Metropolitan Tax Ordinance)

Following last fiscal year, the reduction measure has been taken to bring down the standard taxable value (the upper limit of burden level) for fixed assets tax and city planning tax applicable to commercial lands or the like (including residential lands not used for housing) from 70% to 65% based on the Ordinance.

(2) Reduction under Ordinance Applicable to Lands with the Tax Amount of more than 110% (100% in FY2021 (R3)) over the Previous Fiscal Year (Reduction under the Item 3 of Article 15 of Bylaw to Metropolitan Tax Ordinance)

Continuing from the previous fiscal year, with a view to restraining a drastic increase in tax amount along with the rise of land prices, a measure is taken in which if the amount of fixed assets tax and city planning tax exceeds the product of multiplication of the pertinent tax amount for the last fiscal year by 1.1, the exceeding amount is reduced under the pertinent ordinance.

However, in the FY2021 (R3) portion, regarding land that was applicable to this stipulation in FY2020 (R2) or the reduction under the ordinance described in (1), when the imposed fixed assets tax and city planning tax exceeds the amounts in the previous fiscal year, a reduction in the tax amounts is made corresponding to the exceeding amount.

Note that where the FY2021 (R3) prices change as a result of land tract subdivision/consolidation, or when the land certification has changed due to changes in the land use, the tax amount may surpass 110% of the amount in the previous fiscal year (100% in FY2021 (R3)).

Reduction/Exemption Applicable to Land (in the 23 Special Wards)

The following tax reduction/exemption system is instituted as the own system in Tokyo. Other major tax reduction/exemption systems are shown on Page 82.

(1) Reduction/Exemption from Fixed Assets Tax and City Planning Tax Applicable to Small-scale <u>Non-residential</u> Lands

Following the last fiscal year, fixed assets tax and city planning tax on the part up to 200 m^2 out of a <u>non-residential</u> land whose area per lot is not more than 400 m² is reduced by 20%. However, this reduction applies only to property owned by an individual or a corporation whose equity capital or investment is not more than \$100,000,000.

To each taxpayer who will newly benefit from this measure, an application form will be sent. (Deadline of application filing: December 28, 2021 (R3)).

In order to obtain reduction/exemption, it shall be required to apply to the Tokyo Metropolitan Taxation Office for each ward where the owned land is located. However, those who received a reduction/exemption in FY2020 (R2) in the same ward need not reapply this year.

(2) Reduction/Exemption from Fixed Assets Tax and City Planning Tax Applicable to Land after the Demolition of Old Houses in Specific Fireproofing Districts

In order to prevent the occurrence of large-scale urban fires or a decline in city functions during an earthquake disaster in the Tokyo Metropolis, among the districts having densely built-up residential areas consisting of wooden houses, the Metropolitan Government has designated those which are deemed to be in particular need of improvement as Promotion of Fireproofing Specific Development Districts (hereafter known as "Specific Fireproofing Districts"), and is implementing measures together with the wards to promote fireproofing. One of the forms of special support provided for Specific Fireproofing Districts is an 80% tax reduction for a maximum of five fiscal years in the fixed assets tax and city planning tax imposed on land that has been cleared of old houses for fireproofing purposes, bringing it to the same level as land for residential houses.

◆ Requirements for reduction/exemption

- 1) The old houses that are demolished must be aging buildings which have exceeded 2/3 of their expected lifetimes.
- 2) Old houses must be demolished between the date of designation as a Specific Fireproofing District and March 31, 2026 (R8).
- 3) After the demolition of the old houses, the land certification must be converted from small-scale residential land to non-residential land.
- 4) The ward must certify that the cleared land is appropriately managed as an effective space for fire prevention (Land that is undergoing construction works for houses, etc. cannot be certified as effective space for fire prevention.)
- 5) The owner of the land on the day the old houses were demolished continues to own the land as of January 1 of the year for receiving reduction/exemption.
- 6) The "Application for Reduction/Exemption of Fixed Assets Tax" must be submitted by the deadline for the first taxation period for fixed assets tax and city planning tax in the fiscal year for receiving reduction/exemption (on June 30 (or on the next working day if this date falls on a Saturday, Sunday or holiday)).
- (Note) For more details regarding the reduction/exemption requirements, please contact the Metropolitan Taxation Office in the ward where the owned land is located.

Tax Exemption of Roads (In the 23 Special Wards)

In case the land is used as a road (including the setback portion) and meets the given requirements, according to the stipulation by the Local Tax Act, the part used as the road of such land is not subject to fixed assets tax / city planning tax. In principle, for an application for tax exemption on land is submitted within the year, the Metropolitan Taxation Office will conduct an on-site survey, etc. and if the land is confirmed to be meeting requirements, it will not be subject to taxation from the fiscal year starting in April the following year.

◆ Main subjects for tax exemption in this system

- (1) Roads defined in the Road Act (National expressways, ordinary national roads, Tokyo municipal roads, and ward roads)
- (2) Private roads that satisfy the following conditions (Note: Except for land that was calculated as part of the lot area when the house was under construction)
 - 1) It does not have restrictions on use and is available for use by the general public.
 - 2) It has a form that can be objectively certified as a road.
 - 3) Either of the following shall be applicable.
- In the case of a "private through road" (a road in which the start and end points of the road connect to a different public road), the entire length of the road is 1.8 m or more in width.
- O In the case of a "dead-end private road" or "U-shaped private road", the road is used by two or more houses, the land is used exclusively for traffic, and the road is 4.0 m or more in width (1.8 m or more for former roads).
- (3) The following pieces of land* that are effectively serving as part of the roads described in (1) or (2) above.
- O Setback portion: This is the widened portion of a narrow street, etc. developed by a special ward, where the widened portion, etc. of a road is defined by the stipulations of Article 42 Paragraphs 2, 3 and 5 of the Building Standards Act.
- O Cut-off corner portion: Cut-off corner portion as defined by the stipulations in Article 2 of the Tokyo Metropolitan Building Safety Ordinance.
- * It is necessary that the boundary of the road portion with the site portion is clearly demarcated with a fence, curb, joint, etc., and that the land does not have restrictions on use.

Reduction of Fixed Assets Tax for Newly-built Residential Building

When a newly-built residential building satisfies the requirements for floor area laid out on Page 44, 1/2 of the fixed assets tax (corresponding to up to 120 m^2 of residential space per house) can be deducted for a total of three fiscal years beginning with the year in which the property becomes taxable (five fiscal years for residential building with three stories or more that have a fire-resistance or quasi-fire resistance system).

Similarly, for a residential building certified as long-term quality housing on or after June 4, 2009 (H21) and satisfying the requirements for floor area laid out on Page 44, 1/2 of the fixed assets tax (corresponding to up to 120 m² of the residential space per house) can be deducted for a total of five fiscal years beginning with the year in which the property becomes taxable (seven fiscal years for residential buildings with three stories or more that have a fire resistance or quasi-fire resistance system).

The tax deduction for certified long-term quality housing requires application by January 31 of the year immediately following the construction of the residential building (the year of construction if construction is completed on January 1).

(Note) Proof of fireprotection quasi-systems is required for the wooden houses with three stories or more that fall under the category of residential buildings with a fire protection quasi-system. For this purpose, a "Declaration for a Fixed Assets Tax Deduction" shall be submitted together with an "Application for Confirmation of Construction (copy)" and a "Certificate of Inspection (copy)" or a "Statement of House Performance Evaluation (copy)."

Reduction of the Fixed Assets Tax Associated with Housing Renovation, etc.

(1) Reduction of the Fixed Assets Tax Associated with Renovation for Earthquake Resistant Structures of Housing

In case certain seismic retrofitting is done until March 31, 2022 (R4) for homes existing before January 1, 1982 (S57) to meet present earthquake-resistant standards, half the amount of fixed assets tax (limited to a corresponding 120 m² of living space per house) will be reduced for one fiscal year (two fiscal years for such houses, before retrofitting, was the passage for failure of existing seismic-ineligible buildings stipulated in the Act to Promote Earthquake-Proof Retrofitting of Buildings) from the next fiscal year after the completion date of retrofitting works (if the completion date is January 1, the fiscal year of the retrofitting)*. The requirements for such tax exemption/reduction are same as "Exemption/reduction in the fixed assets tax and the city planning tax (within 23 wards) for the houses which the seismic retrofitting is done". See Page 45 for details.

* The reduction will be two-thirds of such tax where the retrofit house is certified as a long-term high-quality house.

% To take the reduction, an application shall be made within three months of the day of completion of renovation work, together with the specified documents (e.g. the document to prove that the renovation works meet present earthquake-resistant standards).

(2) Reduction of the Fixed Assets Tax Associated with Quake-resistance Renovation for Buildings Included in the Safety Verification Plan

With regard to the buildings included in the safety verification plan or large-scale buildings requiring emergency safety verification, as stipulated in the Act on Promotion of Seismic Retrofitting of Buildings, through assistance from the government, in the case of renovation works carried out until March 31, 2023 (R5) to ensure compliance with existing quake-resistance standards based on the Building Standards Act, half the amount of fixed assets tax associated with the house in question will be reduced for two fiscal years from the next fiscal year after the completion year of renovation works. (If the reduction amount of fixed assets tax exceeds an amount equivalent to 5% of the construction fees related to the renovation works in question, the reduction would be an amount equivalent to 5% of the fees).

X To take the reduction, an application shall be made within three months of the day of completion of renovation work, together with the specified documents (e.g. the document to prove that the renovation works meet present earthquake-resistant standards).

(3) Reduction of the Fixed Assets Tax Associated with Barrier Free Housing Renovation

For residential buildings that have elapsed 10 or more years and whose resident is 65 years of age or older, a person certified as the one requiring nursing care or support under the Long-Term Care Insurance Act or a person with disabilities (excluding rental housing), the fixed assets tax on the house (up to 100 m² of residential space per unit) will be reduced by one-third for the following fiscal year (or for the same year if the construction work completes on January 1) provided certain repair works to make the residence barrier-free were/are completed by March 31, 2022 (R4).

* To take the deduction, an application shall be made within three months of the day of completion of renovation work, together with the specified documents (e.g. the document to certify the completion of barrier free housing renovation).

(4) Reduction of Fixed Asset Taxes for Residential Energy-saving (Heat Loss Prevention) Renovation

For residential buildings (excluding rental housing) that existed before January 1, 2008 (H20), the fixed assets tax on the house (up to 120 m^2 of residential space per house) will be reduced by one-third* for the following fiscal year (if the completion date is January 1, the fiscal year of the renovations), provided certain energy-saving renovations (heat loss prevention) such as insulation retrofitting work on windows were/are completed by March 31, 2022 (R4).

* The reduction will be two-thirds of such tax where the retrofit house is certified as a long-term high-quality house.

- * To take the deduction, an application shall be made within three months of the day of completion of renovation work, together with the specified documents (e.g. the document to prove that each part of the housing after renovation meet the energy saving standard).
- (Note 1) For (1), (3), and (4), it is necessary that the amount of cost for renovation is not less than $\pm 500,000$ per house (the amount after deduction of subsidy, etc. for (3) and (4)).
- (Note 2) For (3) and (4), the floor area of the house after renovation must be between 50 m² and 280 m².
- (Note 3) For the procedures required for the reductions of (1) to (4), please contact the Metropolitan Taxation Office of the ward where the property is located.

Reduction of Tax for Residential Buildings (in 23 Special Wards)

The following tax reduction/exemption system is instituted as the own system in Tokyo: Other major tax reduction/exemption systems are shown on Page 82.

(1) Reduction of Fixed Assets Tax and City Planning Tax for Rebuilding for Greater Anti-earthquake Resistance

When a residential building, which existed before January 1, 1982 (S57), were/will be demolished and replaced with a new residential building by March 31, 2022 (R4), the whole amount of fixed assets tax/city planning tax for the residential area on the new building will be reduced or exempted (in case the tax reduction on a newly built house under the Local Tax Act is applicable, the tax amount after reduction is applied) for three fiscal years beginning with the year in which the property becomes taxable. (The number of houses subject to reduction or exemption shall differ with the conditions of the building before rebuilding).

In the case of the purchase of a newly built condominium, the taxpayer will still be eligible if the necessary requirements are met.

• Requirements for Reduction/Exemption

- 1) The proportion of the residential part of the newly built residential building is not less than 1/2 of the building.
- 2) The residential building was newly built not earlier than one year before or not later than one year after the demolition of the replaced building*.
- 3) Both the replaced residential building and the newly built residential building are in any of the 23 special wards.
- 4) On January 1 of the year following the year in which the day of new residential building construction belongs (if newly built on January 1, the same day of the same year), the same owner as that of the replaced residential building on January 1 of the year in which the day of old residential building demolition belongs owns the new residential building.*
- 5) A certification of completed inspection has been issued for the newly built residential building.
- 6) An application has been filed using an "application form for reduction/exemption of fixed assets tax" not later than the end of February of the second year after the new construction (the immediately next year if newly built on January 1).
- * Even those for whom these are not applicable may be considered eligible if they fulfill a certain set of requirements. For more information, please consult the Metropolitan Taxation Office of the ward where the rebuilt house is located.

(2) Reduction/Exemption of Fixed Assets Tax and City Planning Tax for Renovation for Greater Anti-Earthquake Resistance

For residential buildings that existed before January 1, 1982 (S57), if earthquake proofing repair work is undertaken to meet the current quakeproofing standards based on the Building Standards Act by March 31, 2022 (R4), the full amount of the fixed assets tax/city planning tax (the tax amount after application of the reduction for residential building renovation for greater anti-earthquake resistance under the Local Tax Act) will be exempted (to the limit of an equivalent of 120 m² of the residential space per house) for one fiscal year* in the fiscal year following the date of completion of the renovation. (If the construction completes on January 1, the tax exemption starts in that fiscal year.)

* For two fiscal years if the residential building, prior to completion of earthquake resistance renovation, was a non-compliant earthquake resistance building with risk of blocking traffic in case of an earthquake, as stipulated in the Act for Promotion of Seismic Retrofitting of Buildings.

Requirements for Reduction/Exemption

- 1) The proportion of the residential part of the residential building renovated for greater anti-earthquake resistance is not less than 1/2 of the building.
- 2) The amount of cost of renovation for greater anti-earthquake resistance is not less than ¥500,000 per house.
- 3) A certification of work satisfying anti-earthquake standards has been issued for the renovated house.
- 4) An application has been filed using an "application form for reduction/exemption of fixed assets tax" within three months from the day of completion of renovation work.

(3) Reduction/Exemption of Fixed Assets Tax and City Planning Tax for Houses that have been Rebuilt for Fireproofing Purposes in Specific Fireproofing Districts

As one of the special support measures for the Specific Fireproofing Districts system, houses that have been rebuilt for fireproofing purposes will be exempted from the full amount of fixed assets tax and city planning tax for the residential area (in case the reduction of tax for new residential housing based on the Local Tax Act is applicable, the tax amount after reduction is applied) for five fiscal years from the new year of taxation after the completion of the new buildings. (The number of houses that is eligible for reduction/exemption differs according to the houses prior to the rebuilding.)

In the case of the purchase of a newly built condominium, the taxpayer will still be eligible if the necessary requirements are met.

Requirements for reduction/exemption

1) Both the houses before rebuilding and after rebuilding are located in the Specific Fireproofing District.

- 2) The houses before rebuilding must be aging buildings which have exceeded 2/3 of their expected lifetimes.
- 3) The houses must be demolished within a year designated as the Specific Fireproofing District (However, in the case where the houses are demolished after the new residential buildings have been built, the houses must be demolished within a year from the date of the erection of the new residential building.)
- 4) The rebuilt houses must be fire-resistant buildings, etc. or quasi-fire resistant buildings, etc.
- 5) The rebuilt houses must be issued with a certificate of inspection.
- 6) The percentage of the residential part of the rebuilt houses must be more than 50%.
- 7) The date of completion of the erection of the rebuilt houses must lie between the date of designation as a Specific Fireproofing district and March 31, 2026 (R8).
- 8) On January 1 of the year after the year of completion of the new building (the same day if the date of completion of the new building is on January 1), the owner of the house prior to rebuilding on the day the building was lost must be the same owner as the new building.
- 9) The "Application Form for Reduction/Exemption of Fixed Assets Tax" must be submitted by the end of February of the second year after the completion of the new building (the next year in the case of a new building completed on January 1).
- (Note) Even if this is not applicable, some cases may be eligible when certain requirements are met. Additionally, for more details regarding the reduction/exemption requirements, please contact the Metropolitan Taxation Office in the ward where the rebuilt house is located.

• Disclosure of Land Tax Assessment Value

Land tax assessment value refers to the value of land located along roads in urban areas; specifically, it is the value per 1 m^2 of the standard residential land along the street. The assessed amount of housing land is calculated based on the land tax assessment value, taking into account the factors such as the depth, dimensions, legal restrictions on use, and so on.

In order to make land price assessment more readily understandable to taxpayers, all land tax assessment values for fixed assets tax, which form the basis for assessed values, are disclosed free of charge to the public. For the latest land assessments, etc., please check with the competent Metropolitan Taxation Office.

• Current Owner Declaration System (Within the 23 Special Wards)

When the owner of land or houses has died, it is necessary for the person such as the heir who has become the new owner (current owner) to personally declare that he/she is the current owner.

Until the name in the real estate register is changed, the fixed assets tax and city planning tax is imposed on the current owner based on the declaration.

• Persons subject to declaration

Persons who have become owners due to the death of an owner of land or houses are required to make the declaration. When the name registered in the real estate register has been changed due to heir registration, etc., declaration is not necessary.

◆ Declaration method

Please submit the "Fixed Asset (Land and Houses) Current Owner Declaration" with the attached documents* to the Metropolitan Taxation Office having jurisdiction over the ward where the land or house is located within three months of the time that you personally became aware that you are the current owner.

* The attached documents comprise the residence certificate, certified copy of family register, written will, etc. as (1) the documents which indicate that the registered owner has died, (2) documents which certify that the person making the declaration is the current owner, and (3) documents certifying the current address of the person making the declaration. For more information, please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only) or consult the Metropolitan Taxation Office that has jurisdiction over your area.

• Points requiring care when making declarations

- O Although all the current owners are subject to the declaration, <u>it is also possible for a representative to make a declaration incorporating a number of current owners</u>. In this case, it is not necessary for the other current owners described in the declaration to make a declaration.
- O In situations such as during discussions on the division of inheritances when there is no division of inheritance agreement, will, etc., the land or house will be considered as being co-owned by all the legal heirs, all of whom will become the current owners.
- O When a current owner has land and houses in several wards, declarations should be made to the Metropolitan Taxation Offices in each of the wards where the assets are located. For land and houses located in metropolitan areas outside the 23 special wards, please contact the person in charge in each municipality where the assets are located.
- O In the current owner declaration, the name described in the real estate register is not changed. Regarding the registration, please make inquiries to the Tokyo Legal Affairs Bureau (Main Office and Branches). (For more details, see Page 103.)

• Public Inspection and Public Viewing

(1) Public Inspection of the Books

Public inspection is a system to enable taxpayers to compare the prices of their land/buildings with those of other land/buildings in the same district and to confirm whether or not their fixed assets are appropriately priced. Public inspection is open for a specified period of time (between April 1 and June 30 for FY2021 (R3), excluding Saturdays, Sundays and holidays, in the 23 special wards) to inspect books listing land and residential housing prices. When viewing the books for public inspection, bring with you a driver's license or other document to confirm your identity as the taxpayer.

(2) Browsing of Fixed Assets Tax Ledger

Taxpayers may check on their assets throughout the year via the fixed assets tax ledger. Leaseholders and tenants (exclusively those paying rent on the property) are allowed to view the information on the ledger related to the relevant leased land/leased residence assets (information on land is also available for viewing in the case of a rented house)*¹. A document to identify taxpayer, such as a driver's license, is required in order to view the ledger.

Leaseholders and tenants (exclusively those paying rent on the property) should also bring the original copy of their rental contract*².

- *1 See Pages 86 to 88 for information on applying for public inspection or public viewing pertaining to fixed assets tax in the 23 special wards.
- *2 In the case of sublease right holders, the sublease contract, etc., and the rental contract between the right holder and the leaseholders and/or tenants are needed.

• Requests for Examination (Within the 23 Special Wards)

Regarding fixed assets tax and city planning taxes, in the event of dissatisfaction with the *prices* registered on the fixed assets tax ledger, it is possible for the fixed assets tax taxpayer to file a "request for examination" against the Property Evaluation Examination Council of Tokyo via a written form within three months of receipt of a Tax Notice after the date (April 1 in FY2021 (R3)) of public announcement on the registration of prices, etc. on the fixed assets tax ledger (however, if the price, etc. is determined or amended after this date, the filing is possible within three months of receiving the Tax Notice on such additional registration).

Note that because FY2021 (R3) corresponds to a basic (taxable) year, the prices relating to all land and houses registered in the fixed assets tax ledger will become subject to requests for examination. (all prices of depreciable properties registered on the fixed assets tax ledger are subject to requests for examination, regardless of the basic (taxable) year.)

Moreover, in the event of dissatisfaction with the decision of the examination, a request to cancel such decision can be filed.

City Planning Tax

City planning tax is an earmarked tax used to cover expenses for city development/maintenance and other costs, and is used to enhance and strengthen city development, in particular sewage, parks, community roads, schools, hospitals, measures for small and medium-sized rivers, and measures against high tides. In principle, it is levied on individuals who own land or residential buildings in urbanization promotion areas designated under the City Planning Act. City planning tax applies to the same land, houses and buildings subject to fixed assets tax.

Although, similar to fixed assets tax, this tax is a municipal tax, but the Tokyo Metropolitan government collects this as metropolitan tax in the 23 special wards as an exceptional measure.

In principle, taxpayers shall pay the tax four times a year in June, September, December, and February based on the Tax Notice that is sent in the first tax due month (June). (For due dates on tax payment in each city, town, or village municipality, see Page 104.)

City planning tax is levied in conjunction with fixed assets tax on land, houses and buildings. The Tax Notice states both the city planning tax amount and the fixed assets tax amount.

Standard Taxable Value on Land

• Standard Taxable Value

Standard taxable value is the price registered in the fixed assets tax ledger. Concerning land, however, the following special measure regarding the standard taxable value or the measure to adjust the tax burdens relating to residential land may be applied. For more details, see Pages 39, 40, 43.

• Tax Exemption Limit

In the case that fixed assets tax is not levied, city planning tax will also not be levied. For details, see Page 39.

• Special Measure regarding the Standard Taxable Value Applied to Residential Land

The special measure regarding the standard table value is provided for city planning tax as same as fixed assets tax. For details, see Page 39.

• Measures to Adjust the Tax Burden for Residential Land

The tax burden levels similar to those for fixed assets tax are applied, and the measures to adjust the tax burden have been taken. For more details of these measures, see Pages 40 and 43.

Measure to Reduce/Exempt City Planning Tax (in the 23 Special Wards)

• Reduction/Exemption related to Small-scale Residential Land

The Tokyo Metropolitan Government reduces 1/2 of the city planning tax amount pertaining to small-scale housing land lots (housing lot up to 200 m² per house).

• Reduction under Ordinance on Alleviation of Maximum Burdens Pertaining to Commercial Land See Page 40.

• Reduction under Ordinance Applicable to Lands with the Tax Amounts of more than 110% (100% in FY2021 (R3)) over the Previous Fiscal Year

See Page 40.

Special Land Possession Tax

Special land possession tax is a municipal tax levied on those who have acquired or own land over a certain size, and is collected as metropolitan tax in the 23 special wards as an exceptional measure.

However, in view of the current economic conditions, new imposition of special land possession tax has been suspended since FY2003 (H15).

Taxes Related to Automobiles

Motor Vehicle Tax (Environmental Excite)

This tax is imposed when an automobile is acquired.

 [Taxpayers]

[Due date and procedures for tax payment]

The tax shall be declared for and paid at the automobile taxation office located at the Tokyo Transport Branch Office or the Automobile Inspection and Registration Office at the time of new registration or transfer registrations of vehicles.

• Automobile Normal Acquisition Value

Acquisition value refers to the transaction price of a vehicle. Vehicles acquired at the price of ¥500,000 or less are exempted from the motor vehicle tax (environmental excite).

• Sales Contracts with the Reservation of Proprietary Rights

If the seller reserves the proprietary right of a vehicle in the event of installment sales, etc., the buyer who is the user of the vehicle is considered as its acquirer and is subject to the motor vehicle tax (environmental excite).

• Exemption for Tax Liability

Where a vehicle is returned (transfer registration) to the seller within a month of the purchase date owing to poor performance or for other reasons whereby the vehicle does not meet the contractual conditions such as the color of body or etc., any tax already paid will be refunded on request.

• Reduction/Exemption of Motor Vehicle Tax (Environmental Excite)

Those who satisfy certain requirements are eligible to receive the reduction/exemption of motor vehicle tax (environmental excite) by request. For more details, please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

Application must be made within a period of a month from the date of registration (acquisition).

The reduction/exemption amount is limited to the amount given by multiplying \$3,000,000 with the applicable taxation rate.

Light Motor Vehicle Tax (Environmental Excite) (Ward and Municipal Tax)

This tax is imposed when a light motor vehicle is acquired.

(Note) The light motor vehicle tax (environmental excite) is a ward and municipal tax, but for the time being it will be collected by the pertinent prefecture.

[Taxpayers] Those (regardless of individual or corporation) who have acquired a light motor vehicle with three or more wheels (excluding special-purpose vehicles). Tax exemption, 0.5%, 1%, 2%

(Note 2) The tax rate is determined according to the environmental performance (fuel efficiency). For more details, see Page 55.

[Due date and procedures for tax payment]

The tax shall be paid at the Japan Light Motor Vehicle and Motorcycle Association, located in the Light Motor Vehicle Inspection Organization at the time of new inspection, notification of use and transfer of light motor vehicles.

• Light Motor Vehicle Normal Acquisition Value

Acquisition value refers to the transaction price of a light motor vehicle. Vehicles acquired at the price of ¥500,000 or less are exempted from the light motor vehicle tax (environmental excite).

• Sales Contracts with the Reservation of Proprietary Rights

If the seller reserves the proprietary right of a light motor vehicle in the event of installment sales, etc., the buyer who is the user of the light motor vehicle is considered as its acquirer and is subject to the light motor vehicle tax (environmental excite).

• Exemption for Tax Liability

Where a light motor vehicle is returned (transfer registration) to the seller within a month of the purchase date owing to poor performance or for other reasons whereby the vehicle does not meet the contractual conditions such as the color of body or etc., any tax already paid will be refunded on request.

• Reduction/Exemption of Light Motor Vehicle Tax (Environmental Excite)

Those who satisfy certain requirements are eligible to receive the reduction/exemption of light motor vehicle tax (environmental excite) by request. For more details, please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

Application must be made within a period of a month from the date of registration (acquisition).

The reduction/exemption amount is limited to the amount given by multiplying \$3,000,000 with the applicable taxation rate.

(Note 3) "Fuel efficiency standards of FY2020 (H32)" is considered to be the same as "Fuel efficiency standards of FY2020 (R2)".

Motor Vehicle Tax (Category Base)

The tax is imposed on the owners of vehicles.

[Taxpayers]

Owners of compact vehicles and standard-sized vehicles with three or more wheels, as recorded in the vehicle inspection certificate as of April 1.

[Tax payment]

See the tax rate table on Page 57.

Note that private use passenger vehicles which have received initial new registration on or after October 1, 2019 (R1) shall have their motor vehicle tax (category base) permanently reduced.

[Due date and procedures for tax payment]

The motor vehicle tax (category base) shall be paid by the deadline, as noted on the Tax Notice mailed from the Metropolitan Tax Operations Center in May. For details on tax payment procedures, see Pages 75 and 76.

• New Automobile Registration during a Fiscal Year

The tax due is paid as shown in the table below for new automobile registration, scraping or etc.

	Transfer of ownership		Taxation
New automobile registration			Taxation by monthly installments ^{*1} The tax for the period between the month after the month of registration and the end of the fiscal year imposed by monthly installments.

The tax imposed for new registration shall be directly paid at the automobile taxation office.

*2 If you move in or out from/to another prefecture (Tokyo Metropolis ⇔ Other prefecture), and the taxation for an entire year will apply at the place of registration as of April 1.

• Notification of Transfer or Deregistration of Automobiles

Receipt of an automobile as a gift or discard of an automobile shall be registered at the Tokyo Transport Branch Office or with the Automobile Inspection and Registration Office, and a notification of such transaction shall be filed at the Automobile Taxation Office.

Note that if the registration and notification are not filed, the former owner may continue to be liable for the tax.

• Sales Contracts with the Reservation of Proprietary Rights

If the seller reserves the proprietary right of a vehicle in the event of installment sales, etc., the buyer who is the user of the vehicle is considered as its owner and is subject to the motor vehicle tax (category base).

• Reduction/Exemption of Motor Vehicle Tax (Category Base)

Those who satisfy certain requirements are eligible to receive the reduction/exemption of motor vehicle tax (category base) by request. For more details, please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

Note that for the tax of a vehicle which is already owned, the application shall be submitted by the tax due date. For a newly purchased vehicle, the application shall be submitted within one month of the registration (acquisition) date.

The reduction/exemption amount is limited to $\frac{1}{4}45,000$. In the event of a new registration, however, since this amount is the yearly amount, the maximum reduction/exemption is calculated by multiplying the amount of $\frac{1}{4}45,000$ divided by 12 months by the number of months from the month following the registration to the closing of the fiscal year. In addition,

if the difference between the motor vehicle tax (category base) with greening (additional taxation) and $\pm 45,000$ is less than $\pm 1,000$, then the total motor vehicle tax (category base) amount after additional taxation is eligible for reduction/exemption. See Page 58 for the additional taxation of the motor vehicle tax (category base).

(Note) This is an extracted table of tax rates for automobiles that are not eligible for motor vehicle tax (category base) exemptions through greening.

• Green Tax System of Motor Vehicle Tax (Category Base)

The green tax system of motor vehicle tax (category base) is adopted toward protecting the environment by reducing motor vehicle taxes (category base) for vehicles featuring lower emissions and higher fuel efficiency, which pose a lesser burden for the environment, while imposing heavier motor vehicle taxes for vehicles that pollute the environment more, such as those where a certain number of years have passed since the new automobile registration was made.

1 Less Taxation for Low-pollution Vehicles

Applicable vehicles:

- (1) Passenger vehicles for business whose emission gas standards and fuel efficiency standards meet the conditions in the table below
- (2) Electric vehicles (including fuel-cell powered vehicles), plug-in hybrid vehicles and natural gas vehicles

Details of reductions:

(1) Passenger vehicles for business whose emission gas standards and fuel efficiency standards meet the conditions in the table below

New registration of new automobile	Applicable	Rec	Reduction			
(first registration)	year	Emission standards	Fuel efficiency standards		rate	
	For 1 year in the fiscal year	Reduction in 50% from 2018 (H30) emission gas standards (☆☆☆☆)	(1)	Achieves 90% of the fuel efficiency standards of FY2030 (R12) and the fuel efficiency standards of FY2020 (R2)	Generally 75%	
FY2021 (R3)	following the registration	Or reduction in 75% from 2005 (H17) emission gas standards (☆☆☆☆)	(2)	Achieves 70% of the fuel efficiency standards of FY2030 (R12) and the fuel efficiency standards of FY2020 (R2)	Generally 50%	

(Note 1) If your vehicle meets the fuel efficiency standard, that fact will be stated in the Remarks column of your vehicle inspection certificate.

(Note 2) "Fuel efficiency standards of FY2020 (H32)" is considered to be the same as "Fuel efficiency standards of FY2020 (R2)".

(2) Electric vehicles (including fuel-cell vehicles), plug-in hybrid vehicles, natural gas vehicles (reduction in NOx of 10% or more based on 2009 (H21) emission gas standards or meeting 2018 (H30) emission gas standards)
 → Generally 75% reduction

Applicable period: The motor vehicle tax for the next fiscal year of the registration is reduced.

2 Tax System to Promote the Introduction of ZEVs (Tokyo Metropolitan Government's Own Tax Exemption)

Applicable vehicles	 The following vehicles that are newly registered as a new vehicle between FY2009 (H21) and FY2025 (R7) inclusive Fuel cell vehicles (using hydrogen as fuel) Electric vehicles Plug-in hybrid vehicles
Applicable period	Motor vehicle tax (category base) on new vehicle at the time of new registration (on a monthly pro rata basis) and motor vehicle tax (category base) for five years from next fiscal year onward
Content of reduction	Tax exemption

3 Heavier Taxation for High Pollution Vehicles

Applicable year Vehicles subject to add		ect to additional taxation	Criteria	Additional tax rate
	Diesel	Buses/trucks	Value of the the second of the second second	Generally 10%
FY2021 (R3)	vehicles	Vehicles other than buses/trucks	Vehicles that have passed 11 years since their registration as new vehicles	Generally 15%

F I 2023 (K3)	LPG vehicles	Vehicles other than buses/trucks	Vehicles that have passed 13 years since their registration as new vehicles	Generally 15%

(Note 1) Excludes general passenger buses, electric/natural gas/methanol vehicles, hybrid vehicles (vehicles that are powered by gasoline), towed vehicles, and school buses.

(Note 2) Diesel vehicles installed with devices to reduce particulate matter, as designated by the Metropolitan Government, and vehicles produced before 1945 (S20) (vintage vehicles), are exempted from additional taxation for high pollution vehicles if application is submitted by the deadline.

• Certificate of Tax Payment Required for Automobile Inspection (Motor-vehicle Inspection/Inspection for Structural Changes, etc.)

Taxpayers who have already paid the full amount of motor vehicle tax (category base) can use the certificate of motor vehicle tax (category base) payment (for motor-vehicle inspection, etc.) attached to the right end of the Tax Notice. From April 2015 (H27), the motor vehicle tax (category base) payment status can be confirmed electronically at the Transport Branch Office or the Automobile Inspection and Registration Office conducting automobile inspections. **Therefore, the submission of the certificate of tax payment at the time of automobile inspection may be omitted.**

However, it takes **around a maximum of 10 days** after payment for the Transport Branch Office, etc. to be able to confirm the tax payment. If undergoing an automobile inspection within this period, <u>please pay the tax at the counter of a Metropolitan Taxation Office</u>, financial institution, etc. or at a convenience store, and submit the certificate of motor vehicle tax (category base) payment (for continuous motor-vehicle inspection, etc.) attached to the right end of the Tax Notice at the Transport Branch Office, etc.

For automobiles that have transferred from Tokyo to another prefecture, please submit the certificate of motor vehicle tax (category base) payment (for continuous motor-vehicle inspection, etc.) attached to the right end of the Tax Notice because the Transport Branch Office, etc. may not be able to confirm tax payment between April 1st of the following fiscal year and the day before the tax due date.

• For motor vehicle tax (category base) payments using Pay-easy, credit card or a mobile payment app

If you require a certificate of tax payment for automobile inspection, <u>please apply for the certificate approximately one</u> week after tax payment using Pay-easy or a mobile payment app at a Metropolitan Taxation Office, the Automobile <u>Inspection and Registration Office, Metropolitan Taxation Certificate Mail Reception Center, etc.</u> When paying tax with a credit card, the certificate can be issued immediately after the tax payment procedures are completed. (Regarding applications received during the approximately 10-day period after implementing the tax payment procedures, it will be necessary to show the payment completion screen, etc. on the Tokyo Metropolitan Tax Credit-Card Payment website.) If you are in a hurry, due to reasons such as the automobile inspection date is approaching, please pay the tax at the counter of a Metropolitan Taxation Office, financial institution, etc. or at a convenience store and use the certificate of motor vehicle tax (category base) payment (for continuous motor-vehicle inspection, etc.) attached to the right end of the Tax Notice.

• If you move in to/out of Tokyo Metropolis from/to another prefecture during the fiscal year when you have the automobile inspection, please inquire at the prefecture where you registered your automobile as of April 1 in the year concerned.

- For enquiries about motor vehicle tax (category base), please contact the Tokyo Metropolitan Motor Vehicle Tax Call Center-

<Enquiries> Tokyo Metropolitan Motor Vehicle Tax Call Center 03-3525-4066 (Japanese only) Weekdays: 9 a.m. – 5 p.m.

Motor vehicle tax (category base) is due in May. Be sure to pay the tax by the deadline.

Gas Oil Delivery Tax

Gas oil delivery tax is levied on those who actually take delivery of gas oil from a primary distributor or its exclusive agent.

In the course of distribution, the tax is generally added on to the base price of gas oil; therefore, when consumers purchase gas oil, the gas oil delivery tax is included in the purchase price.

[Due date and procedures for tax payment]

The primary distributor or its exclusive agent collects the tax together with the payment of the gas oil from those who actually take delivery of gas oil and, after having accumulated such tax over the period of one month, files a return and pays the tax by the end of the following month.

• Gas Oil

Gas oil is defined as a hydrocarbon fuel meeting the following specifications. O Specific gravity (15°C) : Over 0.8017 and not more than 0.8762 O Fractal characteristic 90%, distillation temperature O Carbon residue : 0.2% or less

O Carbon residue O Ignition point

• Primary Distributor and Exclusive Agent

Primary distributor : Those who manufacture/import/ or sell gas oil and is designated as such by the Minister of Internal Affairs and Communications

: 130°C or less

Exclusive Agent : Those who are continuously provided with and sell light oil based on the sales agreement with primary distributors and is designated as such by a prefectural governor

• Gas Oil Tax Exemption

Gas oil used for the purposes designated by law, such as powering ships, is exempt from taxation provided certain procedures are taken. In order to utilize gas oil that is exempt from taxation, it is first necessary to become a tax-exempt gas oil user by being issued with a tax-exempt gas oil user permit, and then to be issued with a tax-exemption permit.

• Surrender of Tax Exemption Permits

When a tax-exempt gas oil user violates laws and regulations concerning local taxes, the user may be ordered to surrender the tax-exempt gas oil user permit and the tax-exemption permit.

• Where to Submit the Gas Oil Delivery Tax Declarations and Applications for Gas Oil Tax Exemption, and Others

Where to submit	Location of office or business establishment
Chuo Metropolitan Taxation Office	Chiyoda, Chuo, Bunkyo, Taito and Arakawa Wards
Minato Metropolitan Taxation Office	Minato, Shinagawa, Meguro, Ota and Shibuya Wards
Shinjuku Metropolitan Taxation Office	Shinjuku, Setagaya, Nakano, Suginami, Toshima, Kita, Itabashi and Nerima Wards
Koto Metropolitan Taxation Office	Sumida, Koto, Adachi, Katsushika, and Edogawa Wards
Tachikawa Metropolitan Taxation Office	All cities, towns and villages in the Tama area
Island Branch Offices	Islands

(Note 1) Primary distributors and exclusive agents that have their main store outside of the metropolitan area are to submit their returns and other documents to the Chuo Metropolitan Taxation Office.

• Obligations to Obtain Approval for Production, etc.

Approval by the governor needs to be obtained in advance in order to produce gas oil, to sell or consume hydrocarbon oil fuel for vehicles, or to produce hydrocarbon oil as a mixture of gas oil and hydrocarbon oils other than gas oil. For details, please consult the Metropolitan Taxation Office (or island branch office).

• Mixed Light Oil, etc. Are Also Taxed

Sellers and consumers of mixed gas oil, which is produced by mixing gas oil with kerosene, heavy oil and other substances, or mixing heavy oil with kerosene and other substances, are subject to the gas oil delivery tax.

The tax is also imposed even on hydrocarbon oil fuels (such as kerosene and heavy oil) that do not fall into the categories of gas oil or benzene if they are sold (consumed) as vehicle fuel.

Penalties may be imposed if production, selling or consumption of the substances has been implemented or these activities have been participated in without receiving approval.

In addition, in Tokyo Metropolis, the use and sales of fuels which would increase the quantity of particulate substances or the like contained in exhaust gas are controlled under the "Ordinance regarding Environment to Secure the Health and Safety of Tokyo Citizens (Tokyo Metropolitan Ordinance on Environmental Preservation)".

Engaging in the sales or consumption of adulterated diesel oil is a crime!

Adulterated diesel oil refers to oil that is made by illicitly mixing gas oil with kerosene, heavy oil or other substances, which are not subject to the gas oil delivery tax, and is sold and used as gas oil. This is a tax evasion act to illicitly evade paying the gas oil delivery tax as well as a criminal act that can lead to air pollution.

In order to eradicate adulterated diesel oil, the Tokyo Metropolitan Government is conducting spot checks on gas oil used in diesel cars and imposing strict punishments for the use of adulterated diesel oil.

Please help by providing any information relating to adulterated diesel oil! Call the adulterated diesel oil hot line at 0120-231-793 (toll-free call (Japanese only)).

Taxes Related to Leisure

Golf Course Utilization Tax

Golf course utilization tax is imposed on the users of golf links at fixed rates per day of use. Seventy percent of the tax revenue will be provided to the wards' and municipal governments where the golf link is located.

Those who use a golf link

[Taxpayers]

[Tax payment]

The tax is determined by grades such as the number of holes and usage fee of the golf link.

Grades of golf	First	Second	Third	Fourth	Fifth	Sixth	Seventh	Eighth
link	grade	grade	grade	grade	grade	grade	grade	grade
Tax rate	¥1,200	¥1,100	¥1,000	¥900	¥800	¥600	¥500	

[Due date and procedures for tax payment]

Owners or managers (special collecting agents) of golf links collect the tax from the users and pay the tax amount collected over a one-month period to the competent Metropolitan Taxation Office (branch office/island branch office) by the end of the following month by filing returns.

• Definition of Golf Link

A golf link is defined as the facility having 18 holes or more with the average distance between holes of 100 meters or more, or the one having 9 holes or more with the average distance between holes of roughly 150 meters or more.

• Exemptions/Reductions on the Golf Course Utilization Tax

Golf course utilization taxes are not imposed on children under 18, elderly people aged 70 and over, people with disabilities, athletes participating in golf competitions (including official training) at the National Athletic Game, athletes participating in golf competitions (including official training) using golf courses at international athletic events including the Tokyo Olympic Games and those, including students, who use the facility as part of educational activities at school. The Metropolitan Government also halves the tax rate when persons aged 65 or more and less than 70 or those who have a special restriction on the usage time (such as use during early morning or twilight time) use a golf facility that meets certain requirements.

Hunting Tax

Hunting tax is an earmarked tax that is used to fund the protection of birds and animals by the administrative authorities, and is levied on the registration of hunters.

[Taxpayers]

Those who are registered as hunters

[Tax payment]

The amount of tax differs depending on the types of hunting license. See Page 63 for the table of tax rates.

[Due date and procedures for tax payment]

The taxes shall be paid to Tokyo Metropolitan Government Bureau of Taxation, the Metropolitan Taxation Office (or branch office/island branch office) at the time of registration of hunters.

- A: An individual who is registered as a hunter with a "Hunting guns Category 1" license or a "Hunting with net/trap license", but excluding individuals who fall under Category B.
- B: Of the individuals who are not required to pay metropolitan tax by income rate, those who are not spouses or other dependents sharing the same household income. Of the spouses or other dependents sharing the same household income, those who are engaged in agriculture, forestry or fisheries.
- (Note 1) Individuals registered for a Category 1 license are not subject to hunting tax for air gun hunting under Category 2.
- (Note 2) The following measures have been prescribed
 - through March 31, 2024 (R6):
 - (1) Eligible wildlife wardens and those engaged in designated wildlife businesses are not subject to hunting tax.
 - (2) The hunting tax rate is reduced by 50%, if the taxpayer has received a permit based on Article 9, Paragraph 1 of the Wildlife Protection and Hunting Law or is issued a certificate as a person engaged in business related to the said permit within one year prior to the day of registration as a hunter, and the taxpayer has hunted wildlife, etc. using the said permit.

Prefectural Tobacco Tax

Prefectural tobacco tax is imposed when wholesalers, etc. sell tobacco (including imported tobacco) to retailers and the tax is included in the tobacco price.

When tobacco is bought in Tokyo, prefectural tobacco tax is collected during the distribution process as revenue for the Tokyo Metropolitan Government and utilized to improve the living environment.

[Taxpayers]

Manufacturers, designated retailers (resellers) and wholesalers, etc. of manufactured tobacco

Number of manufactured cigarettes (per 1,000 cigarettes)

Tax rate

[Due date and procedures for tax payment]

The tax amount is calculated for the total number of cigarettes by brand sold for each one-month accounting period, and the tax due is paid by filing a return to the competent Metropolitan Taxation Office by the end of the following month. **Minato Metropolitan Taxation Office** handles all the procedures for declaration and payment of Prefectural Tobacco Tax.

*3 Special income tax for reconstruction is also levied at the same time (see Page 90).

O Tax Credit See Page 67.

[Due date and procedures for tax payment]

(1) General Principle

The taxpayer calculates his/her own income and tax for a given year and files final returns with the Tax Office (National Tax) having jurisdiction over the place for tax payment between February 16 and March 15 of the following year (self-assessed taxation system).

(2) Employment Income Earners

In principle, employment income earners are not required to file final tax returns. Estimated tax is withheld each month from the taxpayer's pay. Once the income for a given year has been determined at the end of the year, the tax amount is adjusted for any unpaid taxes.

The following individuals, however, just as the taxpayers specified in (1) above, are required to file final returns:

- (A) Individuals with income of more than \$20,000,000 over the course of the year
- (B) Individuals with a single salary source, plus non-salary/non-retirement income of more than ¥200,000
- (C) Individuals receiving salary income payments, etc. from two sources or more when all of the salary income, etc. is subject to being withheld at the source, whose total amount of earnings and non-salary/non-retirement income of the income, etc. that was not adjusted at year-end exceeds ¥200,000.

(3) Pension Income Earners

Public pension income earners are not required to file final tax returns if their income from public pension, etc. is $\frac{44,000,000}{1000}$ or less, and if the entire public pension, etc. is subject to withholding taxes and their income other than miscellaneous income pertaining to public pension, etc., is $\frac{200,000}{1000}$ or less.

Also, for individuals that fall under (2) or (3) above, those who take deduction for medical expenses and special deduction for housing loan (first year of application) must file final returns. For details, contact the Tax Office (National Tax) (see Page 102).

- Tax filing can be completed through the Final Return Filing Corner at the National Tax Agency's website (Japanese only) --

You can generate your final returns for income tax and special income tax for reconstruction, as well as the blue final returns by following the instructions on the screen and filling in data such as the necessary amounts. The amount of tax, etc. will be computed automatically.

You can print out the data generated and submit it through post, or submit it using the e-Tax (electronic filing) system.

* For more details, please visit the National Tax Agency's website (Japanese only) (https://www.nta.go.jp).

Tax Credits (Major Ones)

• Tax Deduction for Residence Mortgage Loan Interest (Housing Loan Deduction), etc.

Taxpayers who take housing loans to build or acquire a new residential building or to expand or renovate a residence, and who meet a certain set of requirements are entitled to a deduction of a prescribed sum on income tax in and after the year of taking up residence.

The deduction is applicable to the taxpayers who meet a certain set of requirements and have taken loans from private financial institutions and/or Independent Administrative Institution Japan Housing Finance Agency with the period of the repayment by installments over a period of 10 years or more.

In addition, special deduction from income tax may be allowed for newly built or acquired certified long-term quality housing or certified low-carbon housing (limited to unused housing), as well as when the existing residential building has been renovated for such a purpose as energy saving, barrier-freeing, greater earthquake resistance or the like. For details, contact your Tax Office (National Tax) (see Page 102).

* For recipients who acquire assets as gifts in their position as lineal ascendants (such as from their parents or grandparents, etc.) (only individuals who are age 20 and above as of January 1 of the year in which they received the gift), tax rate is calculated through the application of the special tax rate.

[Due date and procedures for tax payment]

The tax shall be paid to the competent Tax Office (National Tax) having jurisdiction over the donee's place of residence by filing a return between February 1 and March 15 of the year following the year in which the donee received the gift. For details, contact the Tax Office (National Tax) (see Page 102).

• Integrated Gift and Inheritance Tax System

Under the taxation system for settlement at time of inheritance, a taxpayer pays the gift tax on the gift property at the receipt of the gift. When the donor dies, the inheritance tax is calculated based on the total of the value of the gift property at the point in time when it was given and value of the inherited property, and deducting the already paid gift tax.

For the gifts that a child or grandchild who is 20 years old or above received for the year concerned from his/her parent or grandparent who is 60 years old or above as of January 1 in the year concerned, a donee can choose to pay the gift tax, which is calculated by multiplying the amount after deducting $\frac{1}{2}25,000,000$ (special deduction) by the across-the-board tax rate of 20%.

In addition, until December 31, 2021 (R3), the taxation system for settlement at the time of inheritance can be selected for the gift of funds donated by a parent or grandparent younger than 60 years old to acquire specified housing or similar for the donee's own living.

To select the taxation system for settlement at time of inheritance, the taxpayer shall submit the declaration form, the application of selecting the taxation system for settlement on inheritance and the necessary documents within the filing period for the gift tax. For details, contact your Tax Office (National Tax) (see Page 102).

• Special Deduction for Spouse: Special Measure for the Gift of Property for Residence between Spouses

Provided a couple have been married for a period of 20 years or more and meet a certain set of conditions, they can qualify, by filing, for a maximum of $\frac{20,000,000}{100,000}$ deduction for spouse in addition to the basic deduction of $\frac{11,100,000}{100,000}$ for the gift of property for residence or funds to purchase such real property, which takes place between them.

• Special Measure for the Gift of Fund for Housing Acquisition, etc. from Lineal Ancestor

In the case where a child or grandchild who is 20 years or above has received the gift of funds for housing acquisition^{*1} or the like from a lineal ancestor (such as a parent or grandparent) and has signed a contract for acquisition, etc. of a residential building on or before December 31, 2021 (R3), if certain conditions apply, then said individual is eligible for tax exemption up to a certain amount^{*2} of the fund for housing acquisition.

For this special measure to be applied, the taxpayer must submit the declaration form and the necessary documents within the filing period for the gift tax. For details, please contact your Tax Office (National Tax) (see Page 102).

- *1 Funds for housing acquisition refers to the money to be used to build, acquire a new house or renovate an existing house in which the gift recipient shall reside.
- *2 The upper limit of tax exemption varies according to the type of housing, signing period, etc. of the contract for the acquisition, etc. of a residential building.

• Special Measure for the Gift of Education Fund from Lineal Ancestor

In the case where an individual has received the gift of education funds from a lineal ancestor (such as a parent or grandparent) between April 1, 2013 (H25) and March 31, 2023 (R5) inclusive, and if the fund is placed in trust with a financial institution, etc., then the said individual (who must be under the age of 30 and whose total income amount in the previous year must not exceed \$10,000,000) is eligible for tax exemption up to \$15,000,000 per person (up to \$5,000,000 for expenses to be paid to non-schools, etc.) through the submission of a tax exemption form for education funds via the branch office, etc. of the financial institution, etc.

• Special Measure for the Gift of Marriage or Parenting Fund from Lineal Ancestor

In the case where an individual has received the gift of marriage or parenting funds from a lineal ancestor (such as a parent or grandparent) between April 1, 2015 (H27) and March 31, 2023 (R5) inclusive, and if the fund is placed in trust with a financial institution, etc., then the said individual (who must be aged 20 or over, but under 50, and whose total income amount in the previous year must not exceed \$10,000,000) is eligible for tax exemption up to \$10,000,000 per person (up to \$3,000,000 for expenses to be paid for marriage) through the submission of a tax exemption form for marriage and parenting funds via the branch office, etc. of the financial institution, etc.

Inheritance Tax (National Tax)

[Taxpayers]

Inheritance tax is imposed on those who have acquired property by inheritance, bequest (testamentary disposition) or certain other means.

[Tax payment]

See "Calculation of tax amount" below:

0	Tax	rate	(Rap	id ca	lculatio	on table)

Over ¥600,000,000	55%	¥72,000,000

[Due date and procedures for tax payment]

The taxpayer should file and pay within 10 months, beginning the day after he or she becomes aware of the inheritance, with the Tax Office having jurisdiction over the address of decedent at the time of death. For details, please contact the Tax Office (National Tax) (see Page 102).

• Calculation of tax amount

(1) Calculating the taxable value for each heir

(2) Calculating the taxable property

The heirs who have renounced the right to inheritance, if any, are included in the number of heirs when calculating taxable property. In addition, one adopted child can be included in the number of heirs at law when the decedent has a natural child/children, and up to two adopted children can be included when the decedent has no children.

• Reduction of the Inheritance Tax

(1) Inheritance tax reduction for spouse

Where the value actually acquired by spouse (the taxable value) is \$160,000,000 or less, or if it exceeded \$160,000,000 but is less than the taxable value corresponding to legal portion of legacy of the spouse, the spouse is not subject to inheritance tax.

(2) Tax deduction for minor

The sum of \$100,000 multiplied by the number of years before the age of the heir reaches 20 is deducted from the amount of inheritance tax.

(3) Tax deduction for person with disabilities

The sum of \$100,000* multiplied by the number of years before the age of the heir reaches 85 is deducted from the amount of inheritance tax.

* In case of a person with a severe disability, ¥200,000

Motor Vehicle Tonnage Tax (National Tax)

[Taxpayers]

Persons who are given the issuance of vehicle inspection certificate and/or assignment of a vehicle registration number for new registration of vehicle or regular inspection.

[Tax payment]

The tax payment depends on the type of vehicle. See the table (excerpt) for tax rates below.

O Tax Rates (private cars) (excerpt)

			Tax rate		
Vehicle types	Inspection interval		Eco-friendly car tax reduction not applied	Eco-friendly car tax reduction applied* (at the basic tax rate)

Light motor vehicles (excluding	3 years	Per a vehicle	¥9,900	¥7,500	
motorcycles)	2 years	r ei a venicie	¥6,600	¥5,000	

* For vehicles achieving a certain gas emission performance and fuel efficiency performance, etc., an eco-friendly car tax reduction will be applicable at the time of new registration of a new vehicle on or after May 1, 2021 (R3) to April 30, 2023 (R5), granting measures for exemption or reduction of 50% or 25% from the basic tax rate. Additionally, according to the performance, the vehicle may also be subject to the exemption measures in the second automobile inspection, etc.

(Note) For vehicles for which 13 and 18 years have elapsed from the new vehicle registration or etc., specific tax rates are stipulated respectively.

[Due date and procedures for tax payment]

The tax due must be paid by the date on which a taxpayer applies for the issue of a vehicle inspection certificate and/or assignment of a vehicle registration number for new registration of vehicle or regular inspection. The payment must be made at the Tokyo Transport Branch Office, the Motor Vehicle Inspection and Registration Office or the Light Motor Vehicle Inspection Organization by affixing motor vehicle tonnage revenue stamps equivalent to the amount of tax due to a specified document. For details, contact the Tokyo Transport Branch Office or the Motor Vehicle Inspection and Registration Office, or the Light Motor Vehicle Inspection Organization (see Page 74).

- (Note 2) The real estate price is normally the value (assessed value) shown in the fixed assets tax ledger.
- (Note 3) The measures to reduce tax rate may apply to the rates of registration and license tax on preservation or transfer of ownership of residential buildings and on registration of mortgage concerning the loan for the funds to acquire housings.
- (Note 4) The tax vote of The registration of transfer of home ownership when an individual acquires, between April 1, 2014 (H26) and March 31, 2022 (R4), certain residential buildings that a trader of residential buildings has carried out certain extensions or renovations to, has been reduced to 0.1%.

[Due date and procedures for tax payment]

Payment shall be made in cash, and the registration application form shall be submitted together with the receipt of tax payment. When the tax amount is ¥30,000 or less, payment can be made with revenue stamps. For details, contact the Tax Office (National Tax) or the Legal Affairs Bureau (see Pages 102 and 103).

Overview of Ward and Municipal Taxes

The following taxes listed below are municipal taxes. In addition to them, there are various municipal taxes, as shown on page 3. For details, please contact your local municipal office (see Page 101).

Inhabitant Tax on Individuals (Ward, City, Town and Village Inhabitant Tax)

In general, metropolitan inhabitant tax and municipal inhabitant tax on individuals are collectively referred to as the "inhabitant tax on individuals."

Regarding inhabitant tax on individuals, the municipalities collectively assess metropolitan inhabitant tax and municipal tax. (See Page 6 onward for inhabitant tax on individuals.)

Metropolitan Inhabitant Tax and Municipal Inhabitant Tax on Corporations (City, Town and Village Inhabitant Tax)

Inhabitant tax on corporations, consisting of metropolitan inhabitant tax and the city, town and village inhabitant tax, is levied on the corporations that have offices and/or business establishments in Tokyo. These two taxes are referred to as "metropolitan inhabitant tax and municipal inhabitant tax on corporations".

As a special provision of the taxation system of the Tokyo Metropolitan Government, corporations within the 23 special wards of Tokyo file for and pay metropolitan tax together with the equivalent amount of city, town and village inhabitant tax to the competent Metropolitan Taxation Office. Corporations located within municipalities declare and pay city, town and village inhabitant tax at the local ward or town office.

(See Page 27 onward for metropolitan inhabitant tax and municipal inhabitant tax on corporations.)

Light Motor Vehicle Tax (Category Base)

Light motor vehicle tax is imposed on those who own motorcycles, light motor vehicles, special compact cars and twowheeled motor vehicles as of April 1. Tax shall be paid in April or May based on the Tax Notice sent out by the municipal office to taxpayers.

For details, please contact your local municipal office.

Bathing Tax

The bathing tax is an earmarked tax that is used to cover expenditures for environmental sanitation facilities; the protection and management facilities for the sources of mineral springs; maintenance of fire-fighting facilities; and promotion of the tourism. This tax is imposed on visitors to mineral bath spas at the rate of \$150 (standard rate) per person per day. Operators of such facilities collect the tax from their customers and pay the tax to their local ward or municipal office by filing returns.

^{*2} The figures in parentheses are the tax rates applied to vehicles receiving the first new vehicle inspection on and before March 31, 2015 (H27).

^{*3} Regarding electric vehicles, etc. (new vehicles only) newly acquired within FY2021 and FY2022 (R3 and R4), limited to the fiscal year portion following the acquisition, the tax rate shall be reduced by roughly 75% (greening). For four-wheeled vehicles, etc. in use for 13 years since the first new vehicle inspection, a tax rate of about 20% is added starting in

^{*4} FY2016 (H28).

• Tax Delinquency

Tax delinquency means not to pay total tax amount by the designated due date.

The delinquent taxpayer is reminded by a collection letter or the like. If the delinquency still continues, disposition of delinquency will be provided to the taxpayer.

O Disposition of Delinquency

Regarding taxes, the law stipulates that "property of the pertinent taxpayer shall be seized" if "the full amount is not paid in 10 days elapsed from the day of issue of the collection letter."

If no payment is made after the due date, the pertinent taxpayer's property shall be seized with a view to ensuring fairness in relation to taxpayers having paid the dues in full. If delinquency continues after the seizure, the seized property will be converted into money (debt collection practices, public sale of real estate, etc.), and the proceeds will be appropriated to the metropolitan tax. This series of procedures is referred to as the disposition of delinquency.

• Delinquent Charge

Delinquent charges are calculated at the rate (annual interest) shown below, based on the number of days between the day following the due date and the date of actual tax payment:

Delinquent charge	Standard rule	Special treatment	Delinquent charge special standard rate ^{*3}	Average lending rate

*1 If "Delinquent charge special standard rate +1%" exceeds 7.3%, then the standard rule is applied.

*2 If "Delinquent charge special standard rate +7.3%" exceeds 14.6%, then the standard rule is applied.

*3 Until December 31, 2020 (R2), this is known as the special standard rate. The rate during 2021 (R3) is 1.5%.

<On or before December 31, 2013 (H25)>

365 (days)

<On or before December 31, 2013 (H25) >

Delinquent charge =	Tax rate × Number of days (A) × Special standard rate	+	Tax rate × Number of days (B) × 14.6%	
charge	<u>365 (days)</u>		365 (days)	

Number of days in period A: The number of days for a period of one month beginning the day after the tax payment is due Number of days in period B: The number of days by which it is exceeded when the period for the special standard rate is exceeded

(Note 1) Fractions of less than ± 100 or delinquent charges of less than $\pm 1,000$ are dropped.

(Note 2) For those who have taken an extension on filing, the delinquent charge rate of business tax on corporations, special corporate enterprise tax, local corporation special tax, and metropolitan inhabitant tax on corporations (within the allotted period of extension) may vary during the period between January 1, 2000 (H12) and December 31, 2013 (H25) depending on the basic discount rate for commercial bills (what was traditionally called the official discount rate). Between January 1, 2014 (H26) and December 31, 2020 (R2), the delinquent charge rate is defined as the special standard rate (the rate in which the average lending rate has an annual rate of 1.0% added). On and after January 1, 2021 (R3), the delinquent charge rate is defined as the rate in which the average lending rate has an annual rate of 0.5% added. The rate during 2021 (R3) is 1.0%.

Additional Charge for Self-assessment

Additional charges are imposed on the taxes paid on the basis of self-assessment, such as the business tax on corporations, gas oil delivery tax, and establishment tax, if the tax amount actually paid by the taxpayer is insufficient or the payment is overdue.

Additional charge for deficient returns	Where additional charge is required because the amount of return was insufficient when filing returns is carried out within due date	10% (15%) of the additional amount of tax		
Additional charge for not filing returns	Where the return is not filed by due date	5% or 15% (20%) of the tax amount (an extra 10% may be added)*		
Heavy additional charge	Where the taxpayer intentionally tries to evade tax liability	35% or 40% of the additional amount of tax (an extra 10% may be added)*		

* Applied to tax returns with a submission deadline on or after January 1, 2017 (H29).

• **Refunds and Appropriation of Overpayment**

Overpayment of metropolitan taxes or payments made unintentionally will be refunded. Note, however, that refunds will be applied to any unpaid taxes due. Delinquent charge may be imposed even in this case.

In this case, the amount, which is calculated based on the additional refund amount special standard rate* in accordance with the period from the day following the payment to the day when the refund was determined or appropriated, will be added to the amount to be refunded or appropriated.

Additional amount to refund = Overpayment amount × Number of days × Additional refund amount special standard rate* / 365 days

* The additional refund amount special standard rate is defined as the rate in which the average lending rate has an annual rate of 0.5% added.

• Postponement of Tax Collection and Encashment

In the following cases, when the taxpayer is deemed to be unable to make a tax payment in one lump sum, tax collection will be postponed and payment will be possible in installments, etc.

It is necessary for taxpayers to submit an application for the postponement of tax collection and encashment.

For taxpayers facing difficulty paying their taxes due to the influence of the COVID-19, see Page 91.

* The postponement special standard rate is defined as the rate in which the average lending rate has an annual rate of 0.5% added.

• Filing of Appeal and Revocation Suit: Relief Systems for Taxpayers

Taxpayers who are dissatisfied with the taxation and collection of metropolitan taxes have the right to file an appeal and bring a revocation lawsuit, as guaranteed under the Local Tax Act, the Administrative Appeal Act and the Administrative Case Litigation Act.

The Tax Notice, notice of correction and determination, collection letter or the like contain information on period, etc. for filing of appeal and revocation suit for your reference.

Filing of appeal* ¹	In the case where a taxpayer is dissatisfied with the disposition related to the taxation and collection of metropolitan taxes, the taxpayer can file an appeal for administrative review to the governor of the Tokyo Metropolitan Government within three months* ² in principle from the day following the date on which the taxpayer knew that the disposition had taken place (for example, the date on which the taxpayer received a Tax Notice). The application for administrative review must be submitted in writing (in duplicate) to the governor of the Tokyo Metropolitan Government, and may be submitted via the director of the Metropolitan Taxation Office or branch office.
Revocation suit	In principle, a revocation suit cannot be filed before the disposition on the appeal for examination has been rendered. However, when no administrative disposition on appeal is made after a period of three months from the day on which the request for an administrative review was made, the revocation suit can be filed before the disposition has been made.

*1 Of the items concerning fixed assets tax and city planning tax, taxpayers who are dissatisfied with the prices registered in the fixed assets tax ledger can request an examination to the Property Evaluation Examination Council of Tokyo. (See Page 48 for information on requests for examination.)

*2 As for disposition of delinquency, an exception to the period for application for an examination is provided in the Local Tax Act.

• The Tax Agent System

Taxpayers without an address, residence, office, or business location within the Metropolitan area* shall designate a tax agent who handles all matters related to taxation on their behalf.

For details, contact your local Metropolitan Taxation Office.

* For fixed assets tax, city planning tax, special land possession tax and establishment tax, this shall be within Tokyo's 23 wards.

(1) Metropolitan Taxes Covered by the System

- Business tax on individuals, metropolitan inhabitant tax on individuals^{*}, business tax on corporations, metropolitan inhabitant tax on corporations, real estate acquisition tax, golf course utilization tax, motor vehicle tax (category base), mine lot tax, fixed assets tax/city planning tax, special land possession tax and establishment tax
- * Metropolitan inhabitant is assessed together with ward and municipal inhabitant tax. Please consult with your local municipal office on how to appoint a tax agent.

(2) Persons Eligible to Become a Tax Agent

Persons who hold an address within the Metropolitan area* (including corporations)

* For fixed assets tax, city planning tax, special land possession tax and establishment tax, this shall be within Tokyo's 23 wards.

(3) Procedure

Please submit the Notification of Tax Agent to your local Metropolitan Taxation Office. The form is available at Metropolitan Taxation Offices and can also be downloaded from the Tokyo Metropolitan Government Bureau of Taxation website.

See the example for filling out the form on the back of this booklet.

• Time Limit for Right of Taxation and Negative Prescription for Collection

If taxation, including corrections and decisions, of metropolitan taxes were to be retroactive without limitation, or if a forgotten tax payment were to be demanded after a considerable number of years have passed, it would cause confusion and problems for taxpayers.

Therefore, this system, in which the power to tax and collect lapses if not completed within the specified period, has been established.

(1) Taxable Period

Taxation cannot be imposed if the following periods have passed since the day after the statutory due date of tax payment (the due date for the first partial payment or the initial date for the real estate acquisition tax or the motor vehicle tax (environmental excite)).

		Descrip	tion	Taxable Period		
			(A) Metropolitan tax through ordinary collection (excluding (B).)	3 years		
(1)	Where the tax is newly(1) assessed or the amount has		(B) Real estate acquisition tax, fixed assets tax and city planning tax			
	increased		(C) Metropolitan tax through payment by declaration or special collection, additional charge	5 years		
(2)		of the tax amount or	additional charge			
(3)	False state	ment or illegal act		7 years		
		Where a taxpayer files an administrative appeal or institutes a lawsuit		Even if the period (1) to (3) above has passed, taxation can be imposed for six months from the date of decision or judgment.		
		return is to be made	an additional charge for not filing a following submission of an within three months before the date no longer be made	Even if the period in (1) (C) above has passed, taxation can be imposed for three months from the day when the application was submitted.* ²		
(4)	Special cases	Special Where request for correction was made within six		Even if the period (2) above has passed, taxation can be imposed for six months from the day when the request for correction was made.		
		national taxes such consumption tax in tax, special corpora	decision, etc. was made regarding as income tax, corporation tax and reference to inhabitant tax, business te enterprise tax, local corporation l government consumption tax	Taxation can be imposed for two years from the date when the disposition, etc. was made.		

*1: With the exception of applications which were submitted according to predictions of corrections and decisions following inspections

*2: Applies to additional charges for not filing returns in which the statutory due date of tax payment occurs on or after April 1, 2020 (R2).

(2) Negative Prescription for Collection

Principle	The power of collection lapses if it is not executed within five years from the statutory due date for tax payment or from the date of decision or judgment in the special cases in (4) as above.			
Prescription completion, postponement and renewal*	When there is a demand, seizure or other reason, the prescription shall not be finished, and the period of five years for prescription will resume from the day following the date when the reason in question terminated.			
False statement or illegal act	In the case of (3) in the table above, the prescription shall not run for a maximum of two years from the day following the statutory due date for tax payment, and the practical period of prescription may be extended to seven years.			
During the postponement of tax collection and encashment	Prescription does not run during the postponement of tax collection.			

* If the reason for interrupting the prescription occurred on or before March 31, 2020 (R2), the effect shall also continue on and after April 1, 2020 (R2).

Reduction and Exemption

Where taxpayers or taxable items qualify for certain special circumstances, reduction or exemption of metropolitan tax may be applied by request. In principle, those who apply for the reduction/exemption are required to submit an application form, with necessary documents attached, at the Metropolitan Taxation Office or branch office/island branch office* by the due date.

* Applications relating to motor vehicle tax (environmental excite and category base) and light motor vehicle tax (environmental excite) shall be filed at the Tokyo Metropolitan Tax Operations Center, Automobile Taxation Office, or at the Metropolitan Taxation Offices including branch offices and island branch offices.

• Major Types of Reduction and Exemption Systems

Tax items	Main reasons/Objects for reduction or exemption

Procedures for Certification, etc., regarding Metropolitan Taxes

• Types of Certificates, etc. Relating to Metropolitan Taxes

		Overview			
Certificate of tax	x pavment	This document certifies the amounts that should be paid, the amount that were paid, and the amounts outstanding, etc.			
	- F -13	It is possible to issue a 6-fiscal-year portion including the current fiscal year portion.			
Certificate of motor vehicle tax (category base) payment (for continuous motor-vehicle inspection, etc.)		 This document is required when conducting the automobile inspection (Continuous motor-vehicle inspection/inspection for structural changes). It is attached with the Tax Notice/tax payment notifications for motor vehicle tax (category base), but is re-issued in cases such as when the certificate has been lost. * Because it has become possible to electronically confirm tax payment at the counters of the Transport Branch Office and Motor Vehicle Inspection and Registration Office, etc., it is possible to omit the submission of the certificate of tax payment during automobile inspections. (A maximum of around 10 days is required following payment to enable confirmation of the tax payment.) * Can only be used for continuous motor-vehicle inspections/inspections for structural changes (automobile inspections). 			
Certificate of ha disposition of de	ving never received a linquency	This document certifies that the taxpayer has never received a disposition of delinquency in relation to metropolitan taxes. (Note) This is not a "certificate proving there is no delinquency (non-payment)". Because the Tokyo Metropolitan Government does not issue a "certificate proving there is no delinquency (non-payment)", please confirm the required tax item and fiscal year, and apply for a certificate of tax payment (for general use).			
Certificate for us license to produc	se in applying for a ce and sell liquor	 This document certifies that the taxpayer does not correspond to any of the following items in relation to metropolitan taxes. 1. The taxpayer has received a disposition of delinquency relating to metropolitan taxes within the past 2 years. 2. The taxpayer has received a notification procedure relating to metropolitan taxes, and a period of 3 years has not passed since the date when this was executed. 3. The taxpayer is currently delinquent in paying metropolitan taxes. 			
	Certificate of the fixed asset's valuation	Among the items registered in the fixed assets tax ledger, this document certifies items including the fixed asset assessed value, standard taxable value, owner, and location as of the day of assessment in the fiscal year concerned. It is possible to issue a 6-fiscal-year portion including the current fiscal year portion.			
Fixed assets	Certificate related to fixed assets (public dues)	Among the items registered in the fixed assets tax ledger, this document certifies items including the fixed asset assessed value, standard taxable value, tax amount, owner, and location as of the day of assessment in the fiscal year concerned. It is possible to issue a 6-fiscal-year portion including the current fiscal year portion.			
	Certificate of property	Among the items registered in the fixed assets tax ledger, this document certifies the items that are the same as the items registered in the real estate register. Fixed assets which have not yet been registered cannot be certified. It is only possible to issue the current fiscal year portion.			
Fixed assets (supplementary) tax ledger		This is a public record in which the fixed asset location, owner, state, and the value comprising the standard taxable value, etc. are registered. In the case of land and houses, the land category classification or type, the land area or floor area, etc. are mentioned. For depreciable assets, the type, number, and values are mentioned. It is possible to browse a 6-fiscal-year portion including the current fiscal year portion.			
Land and house tax register book classified by owner		This is a ledger based on the fixed assets (supplementary) tax ledger which lists the registered items relating to the land and house for each taxpayer. It is possible to browse a 6-fiscal-year portion including the current fiscal year portion.			
Cadastral map		This is a map which explains the land lot numbers, etc. It is possible to browse only the current fiscal year portion at the Tokyo Metropolitan Taxation Office in the ward where the land is located.			
Certificate of submission of declarations such as new business start-ups (Corporations)		This document certifies that corporations have submitted declarations such as the commencement of business activities (Notification of corporation establishment and notification of change).

- (A) A document to verify the entrustment or agreement by the applicant, such as a power of attorney, written consent, report of proxy appointment or a document that certifies the bearer thereof to be a legal representative of the applicant (a power of attorney or the like from a juridical entity requires affixing of the official seal of the legal representative. The seal of the representative is the seal (registered seal) submitted to the Regional Legal Affairs Bureau, etc., as provided in Article 9 of the Commercial Registration Law.).
- (B) An ID document of the proxy. (same as (1) mentioned above)

• Handling Charge for Certification

Certification regarding the single tax item for more than one fiscal year is treated as one certification. Fixed assets tax and city planning tax are regarded as a single tax item together. Business tax on corporations/special corporate enterprise tax (or business tax on corporations/local corporation special tax) and metropolitan inhabitant tax on corporations are deemed to be two tax items together, and their certificate fee is accordingly ¥800.

Examples: 1. When applying for a copy of certificate for the payment of two tax items among fixed assets tax/city planning tax and real estate acquisition tax: Handling fee = $\frac{400 \times 2}{(\text{tax items}) \times 1}$ (copy) = $\frac{4800}{100}$

- 2. When applying for two copies of certificate for the payment of two tax items among business tax on corporations/special corporate enterprise tax (or business tax on corporations/local corporation special tax) and metropolitan inhabitant tax on corporations:
- Handling fee = $\frac{400 \times 2}{(\text{tax items}) \times 2(\text{copies})} = \frac{1,600}{2}$
- (2) Certificate of having never received disposition of delinquency ¥400 per copy

(3) Certificate for use in applying for the lisence to produce and sell liquor¥400 per copy

(Note) Certificate of the motor vehicle tax (category base) payment (for continuous motor-vehicle inspection, etc.) is issued free of charge.

- (Note 1) Lessees and tenants (limited to those paying the compensation) can also apply for inspection of fixed assets tax ledger and issuance of tax certificate related to land and building. For an application, a document to verify that the applicants are lessee/tenant (rental contract, etc.) must be presented along with the "documents for self-identification" mentioned below. In the case of sublease right holders, also required are the sublease contract and the rental contract between the right holder and the person leasing the land and/or the house.
- (Note 2) For certificates regarding land, buildings or depreciable assets, each parcel of land, each building or each type of depreciable asset is counted as the object of one certificate.

• Document for Self-Identification of Applicant at the Time of Browse of Official Records concerning Metropolitan Taxes and Application for Certificate

With a view to preventing other persons from pretending to be the claimed applicant and applying for browse and certification for an illegitimate purpose and to thereby protecting personal information on taxpayers, the Bureau of Taxation strictly conducts "confirmation of the identity of applicants" who request inspection or apply certification. • Application at the counter:

Please present a combination of any of the following documents to verify the identity of the applicant.

* An ID document (original) of the applicant (who has visited the counter) shall be presented.

* Please be acknowledged that, in principle, we will keep a copy of the "document for self-identification of the applicant" for ID documents A and B.

•Application by mail

- In principle, a certificate will be sent either to: (1) the mailing address to which your Tax Notice is sent or (2) the address registered at the Metropolitan Taxation Office, etc. (having jurisdiction over the location of your head office or principal business establishment).
- No document identifying the applicant is required if the contents of your application (including the object of certification and the applicant's name) are identical with the counterparts in the tax ledger, etc., and the address to which the certificate will be sent is either (1) or (2).
- If you would like the certificate to be sent to an address other than (1) and (2) above, please consult with the competent Metropolitan Taxation Office, etc.
- The requested document will be sent by mail requiring no forwarding.
- Even if the "documents identifying the applicant" have been presented or submitted, oral questions or confirmation by telephone may be conducted when deemed necessary.
- Regarding the documents for self-identification of the applicant required in the case where a person who is exempt from taxation in relation to metropolitan taxes applies at the counter or by mail for a certificate of having never received a disposition of delinquency or a certificate for use in applying for a license to produce and sell liquor, please see the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

Information on the Social Security and Tax Number ("My Number") System Overview of the "My Number" System

The "My Numbers" System serves as the base for linking and putting together personal information dispersed across multiple agencies under the name of the person it belongs to. The System serves as social infrastructure to improve the efficiency and transparency of the social security and tax system, bring greater convenience to the public and create a fair and just society.

<Individual Number>

The Individual Number is a 12-digit number notified to all persons with a registered residence in a ward, city, town or village in Japan. The number is valid throughout your entire life. Please handle it with care, as it cannot be changed other than in cases with possibility of illegal use.

<Corporate Number>

The Corporate Number is a 13-digit number assigned by the Commissioner of the National Tax Agency. A unique number is assigned to each corporation, including "registered corporations" such as joint-stock corporations, as well as "national government organs," "local public entities," and "other corporations and associations."

Unlike the Individual Number, there are no restrictions to its range of use. Anyone can freely use the Corporate Number made public on the National Tax Agency's Corporate Number Publication Site.

[Corporate Number Publication Site] https://www.houjin-bangou.nta.go.jp/ (English available)

♦Information Security Measures

The taxation system used by the Bureau of Taxation is isolated from outside networks, and measures have been taken to prevent outflow of specific personal information (personal information including Individual Number) via networks. [Evaluations conducted to protect specific personal information]

https://www.tax.metro.tokyo.lg.jp/jisshi/hyouka.html (Japanese only)

♦Entry of "My Number" and ID Verification

When submitting applications, etc. with an entry column for an Individual Number or Corporate Number, you will be asked to enter your Individual Number or Corporate Number. Such documents are mainly applications for depreciable assets (depreciable assets tax ledger), as well as applications, notifications or declarations, etc. for metropolitan inhabitant tax on corporations, business tax, special corporate enterprise tax, and local corporation special tax (for accounting years starting on or after January 1, 2016 (H28)).

For Taxpayers Facing Difficulty Paying their Taxes due to the Influence of the COVID-19

In cases where taxpayers are facing difficulty paying their taxes due to the influence of the COVID-19, it will be possible to utilize a tax

collection deferral system by submitting an application. The deferral period is up to one year, the full amount of the delinquent charge will be exempt during the deferral period, and the provision of collateral will not be necessary.

The application form can be obtained from the Tokyo Metropolitan Government Bureau of Taxation website (Japanese only).

Deferral of tax collection (* Law that forms the basis for the regulations: Article 15 Paragraph 1 of the Local Tax Act)

Conditions	 Taxpayers corresponding for example to the following kinds of cases as a result of the influence of the COVID-19 shall be subject to the deferral. When there has been a reduction of roughly 20% or more in income (salary or sales, etc.) When the taxpayer personally, or a family member living on common living expenses, has contracted the coronavirus and has been required to pay large expenses for hospitalization, etc. When there have been considerable losses to property, such as the disposal of equipment and inventories due to disinfection work, etc. When the business operated by the taxpayer has had operations discontinued or suspended.
Subject tax items All metropolitan taxes (Excluding motor vehicle tax (environmental excite), hunting tax, metropolitan tax on individuals, etc.)	
Deferral period Up to a period of one year	
Application deadlineIn principle, please apply by the payment due date.	
Remarks This arrangement will apply to applications made on or before March 31, 2022 (R4).
